

## Over 20 Hurt As Ski Lift Crashes

Spills Passengers Along Lower Levels Of Grouse Mt., Vancouver

VANCOUVER (CP)—A ski lift cable jumped like a whip-lash Sunday and sprinkled dozens of passengers along the lower reaches of Grouse Mountain near here.

About 28 persons were listed as injured after the \$100,000 chair lift swayed ominously and then dropped them as much as 35 feet to the snow-cushioned mountainside on the north shore of Burrard Inlet.

R.C.M.P. said the lift's 1 1/2-inch cable jumped off its bull wheel after a lift chair "swung out of control."

Most of the injuries were minor. Five persons were hurt seriously while most of the others were released from hospital after treatment or stayed at the ski village to nurse their bruises.

## Truman Urges New World To Tighten Defence

Warns Of Perils Of Soviet Expansion

By JOHN M. HIGHTOWER

WASHINGTON (AP)—

President Truman urged the countries of the New World today to strengthen and co-ordinate their defence forces against "great perils" posed by the "aggressive expansion of the Soviet system toward our own hemisphere."

"We must now plan as a primary task for the strengthening and the co-ordinating use of our defence forces in this hemisphere," Truman said in a speech prepared for the opening of the Inter-American Foreign Ministers' meeting.

"We must also consider how we may best use our strength to support the cause of freedom against aggression throughout the world."

In those words Truman sounded the theme which the United States government hopes will guide the work of the Foreign Ministers of 21 American Republics meeting here in their fourth session.

In advance of the Foreign Ministers' conference, it was learned that Truman's administration is giving urgent consideration to an \$80,000,000 military aid program for Latin America.

Truman assailed the theory—advanced by some of his political opponents—that the American countries can protect themselves.

"There will be no security in the world without the U.N.," he asserted. "Powerful and productive as the western hemisphere is, we cannot make it safe by building a wall around it."

While he did not specify the precise steps he hopes the conference meeting here for the next two or three weeks will take, it is known that the U.S. hopes to get agreement for development of a strategic plan for western hemisphere defenses.

Owners of the recently-completed lift released no damage estimate. They said it would be in operation again in 10 days.

Darkness closed in before all the injured had been carried down the steep slopes to waiting ambulances. The accident left hundreds of other skiers and tourists stranded at the chalet high on the mountain. They either spent the night there or hiked down the trail to the road.

An unidentified girl, being brought down the mountain on the lift after breaking her leg skiing, escaped further injury when she was deposited gently at the base of a 50-foot cliff.

"The lift came to a full stop when we were about 10 chairs from the bottom," said James Sowden, 24, of Vancouver, who received leg and face bruises.

"The chairs swung back and forth. Then it made a big lunge forward. We dropped 15 feet and hit the ground. We bounced back up about 10 feet and hit the ground again."

Bob Swanson, department of rail inspection, was on the scene shortly after the accident. He said the lift was inspected Friday and found in good working order.

## Vietminhs Try Night Attacks

SAIGON (Reuters)—Communist Vietminh rebels Sunday night "violently attacked" many French posts and defended villages along the northern periphery of the French-held Tonkin delta bridgehead, a French communique said tonight.

The rebels were repulsed everywhere, the communique claimed.

The attack broke more than a month of silence along outposts of the Tonkin delta.

Meanwhile the U.S. escort carrier Salton's river port today with a large shipment of military aid.

## Attlee Improving

LONDON (Reuters)—Prime Minister Attlee is responding well to medical and dietetic treatment for a duodenal ulcer, it was learned today.

## 1,500 EXPECTANT MOTHERS

## Find Budgets Hit By New Levies

Group of citizens believed to have the most legitimate complaint against higher hospital insurance premiums and co-insurance charges is the younger set with additions to the family scheduled to arrive in the latter part of the year.

Expectant mothers know they will have to go into hospital and it is estimated there are about 1,500 in the Greater Victoria area who, up to a week ago, were not

expecting to be charged \$3.50 a day extra in their period of hospital confinement, or the additional \$9 on premiums.

## SHATTERS BUDGETS

It has been suggested in some quarters that many of younger couples in particular live closely to budgets which will be thrown out of kilter seriously by the changes in hospital insurance financing.

Statisticians are curious to see

Keen Action As Cougars Down Portland

Picture of Sunday night game in Portland, rushed to Victoria Times by airplane, shows Hec Highton, Portland, backed into goal by Jack McIntyre (10), in third period of P.C.H.L. third playoff

game. Hugh Sutherland is down on ice while Eddie Mazur attempts to poke puck, hidden by Sutherland's body, into the net. Walt Samanski is checking Mazur.

First Period Fist Fight

Squaring off in first period battle are Hugh Sutherland, Portland (17), and Don Webster. Sutherland got five minutes for fighting and two minutes for high-sticking. Webster sat out five minutes for fighting. Hal Hopper is Portland attempting to interfere. (For full account of game, see story, page 8.)

## Martial Law Extended As Iran Oil Fields Struck

TEHRAN (Reuters)—Martial law was proclaimed tonight in seven localities of the South Iranian Oil fields, including the great oil refinery centre of Abadan.

This action by the Iranian cabinet followed a spreading strike today of students and apprentices of the Anglo-Iranian Oil Company.

The capital city of Tehran has been under martial law since the Prime Minister was assassinated earlier this month because he opposed a Nationalist move to

take over the British-owned oil company.

The government has since gone ahead with plans to take over the industry.

The strikes in the oil fields today are said to be in protest against the nationalization scheme.

The cabinet was to meet tonight to discuss the situation in the south.

A UP report today quoted police sources as saying a plot to assassinate Gen. Abdul Hussein Hejazi, military governor of Tehran, has been thwarted with the arrest of four men.

The four men were said to have confessed that they belonged to the extremist Moslem politico-religious sect Fidayan Islam (Devotes of Islam), whose members already have assassinated Premier Gen. Ali Razmara and his Education Minister, Hamid Zanganeh.

## Rockey In Toyko

TOYKO (AP)—Brig. John M. Rockingham, commander of Canada's Korean Brigade, arrived in Tokyo today for a brief visit before going on to Korea.

Brig. Rockingham was accompanied by Brig. Frank Fleury, commander of the Canadian military mission to Japan.

Brig. Rockingham plans to return to Canada in a few days, after a brief inspection of Canadian troops in Korea and a visit to Canadian wounded in hospital at Kure, Japan.

Easter Rabbit seems to get around to Portland, too.

Bird-watchin' in th' park yestiddy saw a rainbow-hatted exhibitionist.

See where the North Sea is back on the parallel. But they're still not on the t.v.

## South Koreans Take Town North Of 38th

### Other U.N. Troops Move Northward

TOKYO (AP)—South Korean troops tonight claimed the capture of an unnamed town three miles north of the 38th Parallel on the Korean east coast, a Reuter report said today.

Other United Nations troops solidified their lines on the western front today and drove rapidly north toward the 38th Parallel.

Allied forces moved east from Munsan and linked up with an American division north of Uijongbu. The town is about 10 miles south of the pre-war boundary North and South Korea.

Field dispatches said Red resistance melted. The Americans advanced rapidly despite soupy Korean mud.

The entire U.N. line drew closer to Parallel 38. It appeared the Allies could cross in force whenever they chose.

### CROSS, RECROSS

On the central front an American division was reported within two miles of North Korea. On the east coast South Korean patrols punctured the imaginary line, crossing and recrossing at will.

Far East naval headquarters said South Korean troops staged a commando raid 50 miles north of the parallel Saturday. They landed on the Wolsa Peninsula and killed 100 Reds while capturing 69. Then they withdrew.

The peninsula is south of the Taedong estuary which leads to Chinnampo, port city for the North Korean capital of Pyongyang.

Officers said the Chinese 26th Army Corps, rushed into defensive positions north of Seoul only last week, had withdrawn. The only Reds spotted between the Americans and the 38th Parallel was a single company equipped with tanks north of Uijongbu.

FIGHTERS STRIKE

Parts of six Chinese and North Korean armies were spread between and around the North Korean towns of Yonchon and Hwachon. Yonchon is about six miles north of the border, almost due north of Seoul. Hwachon is about seven air miles north of 38 and 16 miles due north of Chunchon on the central front.

Fifth Air Force fighters attacked Hwachon Monday. Strikes also were made against Kunchon and the military crossroads town of Kumhwa.

On Korea's east coast, South Korean units operated with sea-borne artillery. Allied ships lying offshore pounded Red installations.

Looted Safe Found In Water

Sgt. Jack Hamilton, right, and Constable Robin Stewart of Saanich examine 300-pound safe recovered in Oak Bay waters Sunday, looted of \$12,500 worth of jewelry, bonds and cash. Safe was stolen Saturday night from home of Mr. and Mrs. P. Tergeson, 3374 Quadra. (See Story, Page 2.)

## O'Dwyer Wires Denial Of \$10,000 Gift From Crane

WASHINGTON (AP)—

William O'Dwyer charged today that the story of a \$10,000 gift to him in 1949, was "a vicious lie" made up by a New York fireman's leader "to save his own skin."

The former mayor of New York telegraphed the Senate crime investigating committee asking that "no consideration be given to or conclusions based upon" the testimony given the committee last week by John P. Crane, head of the Uniformed Firemen's Association.

Crane said he gave O'Dwyer \$10,000 in a plain envelope as an "evidence of support" when O'Dwyer, now Ambassador to Mexico, was running for reelection as New York's mayor.

Other crime probe developments today were:

1. James J. Moran, resigned New York City Water Commissioner, was indicted on charges of lying under oath to the Senate committee was Louis Weber, acknowledged Brooklyn numbers bookmaker. The indictments were returned by a federal grand jury. Moran, a long-time political protégé of ex-mayor William O'Dwyer, was accused of falsely telling the committee that Weber

visited his office no more than six times between 1946 and 1950.

2. Attorney-General J. Howard McGrath said there is no way under the law to denaturalize or deport Frank Costello, New York racketeer. McGrath testified before the Senate Crime investigating committee that Costello has been convicted only once of a serious crime—carrying a concealed weapon in 1915—and for that reason is not subject to deportation. He noted that Costello, born in Italy, became a naturalized citizen in 1925.

3. McGrath also came out against a national crime commission but urged senators to tighten the perjury and "self-incrimination" laws. He recommended that Congress enact legislation to deny use of communications facilities to gamblers. But any such law, he emphasized, should take into account the importance of maintaining the freedom of the press.

4. J. Edgar Hoover, director of the Federal Bureau of Investigation, urged the Senate crime committee to continue its exposure of organized crime which "has polluted all too many communities of our nation."

## 224 Die Violently

CHICAGO (AP)—Traffic and a variety of other accidents caused 224 deaths in the United States during the Easter week-end.

Between 6 p.m. (local time) Friday and last midnight, the known traffic fatalities had climbed to 159, and deaths from miscellaneous causes to 65.

## First Canadian Wounded Flown Home From Korea

VANCOUVER (CP)—Army headquarters said today two wounded members of Canada's Special Brigade arrived here from Japan Friday by air, then headed east.

They were the first Canadian

casualties flown in from the war zone. The army withheld announcement of their arrival as a security measure.

The men, described as walking wounded, were not identified. The army said only that they were "heading for eastern Canada." Another plane carrying Canadians wounded left Japan Saturday.

## Appeal Planned For Mrs. Pitre

QUEBEC (CP)—An appeal will be entered against the death sentence imposed on Mrs. Arthur Pitre, it was announced today by Irene Simard, her lawyer. Mrs. Pitre was found guilty a fortnight ago of murder in connection with the explosion and crash of an airliner at Sault-au-Cochon in September, 1949. She was sentenced to be hanged July 20.

## Landslides Kill Nine

BOGOTA (Reuters)—Landslides have killed nine persons in the Manizales Caidas region during the last 24 hours. It was reported today.

CAMPBELLVILLE, Ont. (BUP)—Pte. Jack Robertson of the Princess Patricia's Canadian Light Infantry complained today a spent bullet gipped him out a chance to kill Communists in Korea.

The spent bullet, which apparently split after ricocheting off a rock, nearly killed him instead. Robertson was back home today as one of Canada's first soldiers to be returned with Korean war wounds.

"If I had another chance at the Communists in North Korea, I'd like to get my own back," he said as he dug into a plateful of his mother's home cooking.

## ONE WOMAN'S DAY

By NANCY HODGES

## WEIRD WILLS

LISTENING TO A NEWS broadcast the other day, which told of the will of the late George Bernard Shaw and its partial dedication to the cause of a 40-letter alphabet, to supersede the present 26-letter variety, I reflected on the curious way in which so many wills record the idiosyncracies of human nature.

Shaw, author and playwright, one of the really great figures of English literary history, had long advocated this arbitrary change in the English alphabet. Despite his age, position and influence, and the opportunities thus presented for prosecuting his purpose, however, he died without accomplishing it. Yet he was prepared to pay posterity to carry on the campaign.

## POSSIBLE PERHAPS

AS THE BRIEF broadcast made no mention of any other provisions of the Shaw will, I do not know what other legacies he left. But I imagine he wrote even that one with his tongue in his cheek, secure in the knowledge that it would probably provoke one of the controversies which he so loved to start in his long lifetime.

But, strange as it may seem, his language legacy has more likelihood of being carried out than some of the strange bequests left by other eccentric characters—whose last will and testament perpetuates their oddities for posterity.

## GREENER GRASS

I REMEMBER, while visiting in Redwood City, Cal., a few years ago being told of the queer clause in the will of a certain Nelson Tunnicliff, a former wealthy resident of that lovely spot. If the grass over his grave in the local cemetery turns brown, the vast trust fund he left becomes legally void according to the terms of his will.

That condition leads me to venture the suggestion that you would probably travel far before you would find any greener, more verdant pall than lies above the remains of the departed Mr. Tunnicliff.

## FOR FIREWOOD

EQUALLY ODD was the will of another American who left his lazy nephew \$30,000 on condition that he received the whole legacy in firewood, which he had to chop up and sell single-handed.

Then there are the curious and Omar-Khayyam-ish bequests dedicated to celebrations. Like the case of a certain Guy Bell, an Englishman who died in Cairo some years ago and left money enough to pay for double whiskies in a certain "pub" in Portsmouth, England, at 8.30 p.m. on the anniversary of his birthday each year, "to commemorate the pleasant company and happy hours I have spent in the place."

## QUEER CONDITIONS

SPEAKING OF "PUBS," one of the queerest funeral conditions ever set out in a will was that made by the Dowager Lady Sackville, a well-known hostess of the Edwardian era. She left instructions for her remains to be cremated and her ashes taken to a certain famous oyster shop in Brighton, Sussex, there to lie in state before being taken out to sea and cast on the waters.

Unusual, especially in a man of his calling, was the request made by Rev. George William Cutchley, a Methodist minister of Cornwall, England, that his mourning relatives wear bright red instead of black, and comport themselves as cheerfully as possible. It is interesting to note that the request was carried out in the spirit of the will.

## SHORT AND SWEET

AMONG the shortest wills on record at Somerset House, the London repository for the last testaments of Britons, is one left by a Mr. Thorne. He bequeathed a substantial fortune to his wife in 1906 by the will: "All for Mother." This was proved at law easily enough.

A propos of doubtful wills, a reader recently sent me a newspaper clipping concerning a document, dated Dec. 23, 1891, which was found in an old book bought for twopenny by a Scots student off a London street barrow in 1912. I don't know what happened to it in the meantime, but it was recently put forward for probate as the will of Henry Thomas Coghlan, who died in 1892, and whose will was never found. In the meantime his £750,000 estate had been divided among relatives. So it was hardly surprising to learn that the alleged will has now been declared by a High Court judge in London as unauthentic.

## Many Jobs For Skilled Workers In Other Parts

Many requests for skilled workers from firms across Canada are being received by the National Employment Service office here, it was reported today by C. A. Mudge, manager.

Some of the vacancies available outside Victoria include: Senior electrical engineer, engraver, construction material clerk, superintendent sewer and water-line construction, loom fixer, third-class stationary engi-

neer, credit investigators, district auditor, draughtsmen, laundry superintendent, student nurses, design engineer, saleswomen, municipal engineer and ice-cream maker.

Mr. Mudge said the number of unemployed was reduced considerably last week. The greatest number of vacancies continued to be in the sales field with the construction industries occupying second place.

With regard to women, Mr. Mudge said the greatest proportion of jobs available for women are concentrated in the stenographic and domestic fields.

## Officers Elected By Welsh Society

John C. Williams has been elected president of the Victoria Welsh Society and the retiring president, Bert Thomas, was named honorary president. Others holding office are Ellis James, vice-president; H. P. Howell, secretary-treasurer; and Mrs. E. Hopkins, Mrs. W. Stuart, Mrs. J. C. Williams, Mr. and Mrs. Jack Jones, William Davies, and Robert Thomas, executive members.

## KIPLING SOCIETY

The Kipling Society will meet at 317 Cook St., Wednesday at 8.

## Civil Servant Held For Weird Kidnapping Of Boy

KINGSTON, Ont. (CP)—Owen C. Dumlage, 29, of Ottawa, has admitted kidnapping 13-year-old Teddy Wainwright and holding him captive for 36 hours, police said today.

An employee of the Department of Transport, Dumlage is in hospital under police guard after being injured early Sunday when an automobile carrying him and his young captive plummeted into a culvert on Highway 15, about 20 miles north of this eastern Ontario city.

At home with his widowed mother, Teddy, uninjured in the crash, told a bizarre story of being bludgeoned on a Kingston Street Friday night. The lad, apparently none the worse for his experience, said he was blindfolded, gagged and bound, taken by car to a farmhouse, forced to don a bathing suit, then tied in various positions and strung for a time by his ankles from a beam in the cellar.

Police at first refused to believe the story. "The policeman bet me all the money I had on me that I was telling a cock-and-bull story," said Teddy. "When a check was made he gave me 30 cents—all I had with me."

Police said Dumlage is subject to dizzy spells. They added that he appeared sorry for his actions and admitted the whole thing.

He suffered head injuries in the accident which wrote finish to Teddy's nightmare. Police said they were awaiting his recovery before formally charging him.

Early Sunday the pair started back for Kingston. Three miles from Seeley's Bay, the car crashed into a culvert. The two made their way to the farmhouse of William Murray who drove them to hospital in Kingston.

## Says Israel Survives Great Economic Shock

MONTREAL (CP)—Abba Eban, Israel Ambassador to the United States, Sunday night said his country has successfully met "the greatest shock of any economic unit in the history of mankind" during the last two years. In an address to the three-day National Conference for Israel and Jewish Rehabilitation, he said 510,000 refugees, most of them destitute, have been absorbed successfully since Israel became a state.

## Find Stolen Safe Thrown In Water

Quadra Street Home Rifled Of  
\$12,500 In Cash, Bonds And Jewelry

After recovery of the safe Sunday, Saanich police, assisted by the city detective office, resumed efforts today to track down the two or more burglars who broke into the home of Mr. and Mrs. P. Tergeson, 3374 Quadra Street, Saturday night and escaped with the strong box containing about \$12,500 in cash and valuables.

The 300-pound safe was stolen from the home of the Tergesons between 6.45 and 8.15 while they were in Chinatown having a Chinese supper.

Seventeen-year-old Bart McDonough, 2560 Costwood Road, spotted the safe in 12 to 14 feet of water off Cattle Point, Oak Bay, at 11.50 Sunday morning.

He called Oak Bay police and Constable G. W. Patterson notified Sgt. Jack Hamilton, in charge of the investigations in Saanich.

## HAD BEEN EMPTIED

The safe was lifted from the water. It had been looted of all cash and valuables. The dial had been knocked off and the tumblers punched back.

The thieves entered the home by removing the screen from a front bedroom window and forcing the window. The safe was carried out of the front door to a vehicle less than 60 feet away.

The home was ransacked in the search for valuables. The thieves missed Mrs. Tergeson's purse containing \$70.

Police say they have found no one who saw the robbery but have established that a vehicle was used.

Indications are that the robbers knew what the safe contained and went there for the express purpose of taking it away.

The culprits must have been keeping a close watch on the movements of the Tergesons.

The thieves left few clues to give police a lead. The way the safe was opened indicated they were not amateurs at the game.

FIRST IN U.S. arrested on price violation charges is Albert Rontell, Los Angeles used car dealer, who government agents say, sold Cadillac, listed at \$3,660, for \$4,597.

## Dismissals, Shake-Ups Follow Crime Scrutiny

WASHINGTON (UP)—Senate crime investigators have given headlines to politicians, thrown one of the nation's biggest gamblers behind bars, and touched off federal and local grand jury inquiries.

A United Press survey of 13 cities showed three sheriffs fired, two police officials demoted and one a suicide, a U.S. ambassador under fire, two De-

mocratic congressional losses, three grand jury investigations, underworld characters in jail or facing imprisonment for perjury or contempt, and local law enforcement officers facing bribery and other charges.

Still more political repercussions are in the winds, and Congress is under heavy pressure to continue searching for proof of nationwide co-operation between politicians and organized crime.

The cities included in the survey were: St. Louis, Kansas City, Cleveland, New Orleans, Chicago, New York, Miami, Tampa, Philadelphia, Detroit, San Francisco, Los Angeles and Reno.

Reno was the only one failing to report a general squeeze on gambling by local authorities. Citizens of Nevada—where gambling is legal—were amused by the "discovery" that some public officials hold gambling interests.

Some of the "names" involved in the investigation are big-time gambler Frank Erickson, U.S. Ambassador to Mexico William O'Dwyer, underworld king Frank Costello, and Jake (Greasy Thumb) Guzik and other survivors of Chicago's prohibition era Capone gang.

## Seeking Successor To Sen. Vandenberg

LANSING, Mich. (UP)—Governor Williams confirmed today Democratic county chairman in Michigan have been polled on their choices for a successor to ailing Sen. Arthur H. Vandenberg.

Meantime at Grand Rapids, Mich., Vandenberg's physician, Dr. A. B. Smith, said the 67-year-old senator's condition could "best be described as unchanged."

# Chinese Licked In Korea--Just Theory

No Enemy Commander To Talk Peace As Fight Bogs Down Along Parallel

By HARRY FERGUSON, United Press Foreign News Editor.

The Chinese Communist armies in Korea may be licked, but it is going to be difficult to get them to admit it.

They are licked in the sense that it now seems impossible for them to achieve their over-all objective—driving the United Nations army into the sea and making Korea a unified Communist nation. But by the same token the U.N. Army would find it difficult to drive all the Chinese back into Manchuria and carry out the directive calling for it to pacify and unify Korea.

The situation right now is in delicate balance. Most of the Communist troops are back on their own side of the 38th Parallel. The U.N. army stands at the parallel, still holding the initiative, but reluctant to undertake an offensive into North Korea.

That is why Gen. Douglas MacArthur has made his proposal for battlefield negotiations. He has offered the Communists one more chance. Unless the offer is accepted there seems to be no alternative except to push across the parallel in force and move north to a strong natural defence line. There isn't any such line along the parallel.

MacArthur said he was willing to talk with the Communist commander. But who is he and where is he? The ranking Chinese commander in this fight seems to be Gen. Lin Piao, leader of the 4th Chinese Field Army. But he has never issued an order of the day, a statement or a communique. So far as the written record is concerned, he has nothing to do with this war. Nor does any Chinese soldier have anything to do with it. All of them are "volunteers" who went to Korea of their own accord. There is going to have to be a sudden change in policy before any Chinese general appears and negotiates with MacArthur. To do so would be to admit that China officially is in this war.

The man who really started the war is Kim Il-sung, head of the North Korean Communist Party. That is, he is the one who actually ordered troops to invade South Korea, although he undoubtedly had a clear understanding with Moscow and Peking before he gave the signal to march. Kim Il-sung probably would be reluctant to appear on his own account, but he might be prodded into it by the Chinese if they are really desperate.

## Ontario Crew Has Good Time In Australia

BRISBANE (Reuter)—The visit here of the Canadian cruiser Ontario has been "wonderful" for every man aboard, Commodore H. F. Pullen, her commander, said today.

After refuelling early tomorrow, the cruiser will take part in manoeuvres off the Queensland coast and then visit Sydney for 10 days.

Five hundred of the ship's company had their final Brisbane leave today.

Padre Ronald McLean of Victoria, who accompanied the ship, said the visit was "wonderful" for every man aboard, Commodore H. F. Pullen, her commander, said today.

They had not seen each other for 31 years—since they were seminary students in Rome.

The ship's officers were guests of the Queensland Turf Club and the ship's cricket and field hockey teams met local teams.

Able Seamen Michael Kostek from Alberta and Hamilton Alexander of Vancouver were taken ill with tropical fever two days before the Ontario berthed. They saw Brisbane only through the sick-bay porthole.

## Near-Slavery For Mexican Laborers

NEW YORK (CP)—The New York Times says today at least 1,000,000 Mexican laborers cross the Mexican-United States border every year to work under conditions comparable to pre-civil war slavery.

The Times, in the first of a series of five articles by Gladwin Hill, says the "wetback" system—so-called because many of the infiltrating laborers swim the Rio Grande to enter the U.S.—offers a wide-open avenue for Communist spies to enter the country.

Hill says "in cold fact Joseph Stalin might adopt a perfunctory disguise and walk into the country this way."

## To Resist Rearming

BERLIN (AP)—The Communist-controlled "European Labor Conference" adopted a resolution today urging all workers to resist the rearming of western Europe. The resolution climaxed a week-end meeting of delegates from Soviet-sphere countries.

## COMMERCE CHAMBER BALLOTS

Members of the Victoria Chamber of Commerce are reminded that final ballots for election of directors of the Chamber must be in the Chamber of Commerce office not later than 5, Tuesday.

'I WAS A RED,' Larry Parks, movie actor told the U.S. House un-American activities committee in Washington. Parks, best known for his portrayal of Al Jolson said he quit the Communist Party 10 years ago. He gave the names of other Hollywood Reds in secret.

## F.B.I. 'Plants' Agents Among Reds In U.S.

WASHINGTON (AP)—J. Edgar Hoover disclosed today that the Federal Bureau of Investigation has secret agents among a group of American Communists which he said "has gone underground for possible action at a later date."

The disclosure was reported in a copyrighted interview in the magazine U.S. News and World Report.

The F.B.I. director said "all that remains of the Communist party . . . above ground is a self-constituted core, which for appearance's sake maintains a public contact."

A new F.B.I. "count" of party members in the U.S., puts their total at 43,217, Hoover said. This is more than 20 per cent less than the 53,000 figure he gave last year. The party itself has stopped issuing membership figures.

## Could Blockade China

TOKYO (AP)—Vice-Admiral Arthur D. Struble said today he believes the United States Seventh Fleet is strong enough to blockade the long coastline of Red China.

He said the fleet also could prevent any Chinese Communist invasion of Formosa. Chances of such an invasion attempt are increasing as the weather improves, he said.

Struble made the statements at a press conference before turning over command of the fleet to Vice-Admiral Harold H. Martin.

Struble will return to the United States to command the U.S. First Fleet in Pacific Coast waters.

Struble refused comment when

asked if the amphibious forces of the Seventh Fleet were large enough to support a United Nations or Chinese Nationalist invasion of the Chinese mainland. But he said:

"I believe the forces—air and surface—now in the Far East could adequately conduct a naval blockade of China if such a decision were reached by the government."

A census of New France in 1666 is believed to have been the world's first proper census of occupations and ages.

## Style-WISE CANADIANS CHOOSE

**AUSTIN**

One of the reasons for the ever-increasing popularity of the Austin

A40 Devon is its smart, eye-pleasing design. And because this fine styling is modern and completely functional,

you can invest in a Devon without fear that it will look "dated" a few months later. But see for yourself—

visit your Austin dealer and let him show you the trim, styled-for-today A40

Devon—available in a wide range of attractive colours with stylish interiors.

You'll like all the many Austin features which add so much to your motoring comfort and satisfaction. From any angle—style, safety, economy, performance and dependability—Austin is your number one car buy.

MORE THAN EVER IT'S

**AUSTIN**  
THE CAR FOR CANADIANS!

Genuine Austin parts and expert, factory-recommended service are readily available throughout Canada and the U.S.A.

## Chilling Spectacle

NOW THAT THE BRITISH COLUMBIA budget and the Federal Government's expenditure estimates are complete it is possible to see what lies ahead for the local taxpayer. A chilling spectacle.

The Federal Government estimates that it will spend \$3.6 billions in the next year but, with various contingencies yet to be covered, the bill will probably reach at least \$3.7 billions. That would be just \$500 millions more than present tax rates can produce. The country must face tax increases of half a billion, or about the total amount of our pre-war budget. On average, every man, woman and child in the nation must contribute \$3 a month more in Federal taxes, or \$12 for a family of four.

That will bring the average Canadian's Federal taxes up to \$264 a year or \$1056 for the family.

In addition, the people of British Columbia must provide over \$118 millions to finance their provincial Government. The average British Columbian's provincial taxes will be \$104 a year, or \$416 for a family.

Adding Federal and provincial taxes together, the per capita tax in British Columbia will be \$368 a year or \$1,472 for a family. That, for the family, is \$122 a month.

So long as national defence is taking something like \$1.7 billions, so long as Federal and provincial Governments refuse to cut down their civilian expenses, the figures mentioned above may be disguised but they cannot be escaped. Many people will say, however, that they can avoid these draconian taxes because someone else will pay. In a degree this is true—people with high incomes pay proportionately more than poor people. But the vast indirect taxes, sales taxes and the like are not levied according to ability to pay. They strike at rich and poor. And while corporations

will pay heavy taxes much of that burden is handed on to the ordinary consumer in prices.

For the ordinary family of average income there is no escape. The cardinal fact to be remembered—though it is usually forgotten—is that most of the nation's income goes to the people with incomes of \$3,000 a year and less. Very little of it in total goes to the rich who are few in number. Hence, to raise money in the volume now required, government must strike at the small people, the working family. It is that family which will and must pay most of the taxes.

Since the poorest groups escape income taxes, the burden on the average family may well be larger than the figures cited. It will be hidden in the price of goods, it will be levied here and there, a few cents at a time, but it will not be escaped.

This is the price of national safety on the one hand and the price of national extravagance on the other.

Our Federal Government set out last autumn with high hopes of economizing on civilian account. It has failed utterly. The pitiful saving of \$35 millions announced by Mr. Abbott after months of struggle in cabinet will be washed out by various items like the subsidy of \$65 millions to the prairie wheat growers for their gambling losses. The provincial governments all will spend more this year than ever and British Columbia, as usual, will lead the parade.

For all this governments are not alone to blame. They have been driven into extravagance by the demands of the taxpayers for expenditures. The taxpayers must pay their own bill. It will be larger than the tax figures suggest. Since government expenditures are one of the chief causes of inflation, the taxpayer will pay for them not only in taxes but in high prices and in the depreciation of his savings.

## Congress Goes Easy

IN LOOKING TO OTTAWA FOR AN economic cure-all, the people of Canada are looking in the wrong direction. They must look to Washington which is the generating engine of our Canadian inflation. And in Washington what they see is not encouraging.

Theoretically prices have been put under control. Not even theoretically, however, has inflation been put under control. The Government is still spending far more money than it collects in taxes, is piling up debt and thus daily distending the balloon of money in the form of credit.

There is no sign that the Congress will soon halt this distention. President Truman has asked for extra taxes of about \$16 billions to balance the budget, but the Congress keeps postponing a painful decision. It is said that a new tax bill may not be passed until mid-summer. Meanwhile the balloon continues to expand and ascend. The high prices thus generated, despite every effort to control them directly, flow across the border into Canada which cannot isolate itself from its neighbor.

The failure of Congress to strike at the cause of inflation and the present attempt to strike only at its symptom, the price level, seem to be part of a general easing in international tension during the last few weeks. From Wash-

ington and every corner of the nation correspondents report that, after the war scare of January, people are beginning to wonder if things are really as bad as they looked.

This growing mood of complacency in the United States, and in Canada also, must be satisfactory only to the Kremlin, which doubtless is promoting it. There is no visible justification for it. The hard and doubtful bargaining of the Big Four deputies in Paris, the Communist inside job of nationalizing the oil of Iran, do not suggest for a moment that Russia is yet seeking a world settlement.

Russia has suffered a reverse in Korea and in Indo-China. It has made what may prove to be its fatal mistake in forcing the west to re-arm. But its struggle short of general war does not slacken and its greatest single success is the distortion of the North American economy through inflation.

All policies which stimulate inflation and increase that distortion play straight into Russia's hands. Nothing could suit Russia so well as weak fiscal policies and public apathy in America. In the Politburo, we may be sure, the tax laws and the budgetary figures of the United States Government are required reading. It is very agreeable Soviet reading at the moment.

## In The Red But Optimistic

TO THE MAN IN THE STREET THIS country's two main public enterprises, Trans-Canada Airlines and the Canadian National Railways, may seem the most buoyant concerns showing deficits during 1950. In each case the transportation lines finished in the red, but to a degree so reduced from other recent years, that the improvement justifies the satisfaction shown by the two managements. The C.N.R. went behind \$3,261,235 only, compared to \$2,000,000 in 1949.

Trans-Canada Airlines completed 1950 with a surplus on domestic operations. It paid its way and showed a \$201,206 profit on its North American services where it had dropped \$1,419,444 the year before. The trans-Atlantic service costs, however, pulled it down to a deficit of \$1,526,412, something more than half of the amount it went behind in 1949.

Grounds for optimism exist, nevertheless, in the manner in which increasing patronage and improvements in operation showed domestic results last year—a condition which speaks well for the future.

As far as the railway lines are concerned, it is only fair to note that the complicated debt structure of the C.N.R. is such that no true picture may be

presented. In his talk to the C.N.R. Staff Service Club in Montreal last week Donald Gordon, president, underscored the point that since its inception in 1923 the organized system "has never failed to meet operating expenses."

Fully understood only by those familiar with the debt structure is the exception he takes to "the choice of policy which transferred all the debts from the bankrupt companies on to the balance sheet of the newly organized system and required it to shoulder a fantastic burden of interest quite beyond its capacity to pay out of operations."

This condition may be remedied if recommendations of the Turgeon Commission are accepted. By such action the fixed charges against the lines could be written down to some reasonable relationship to the operating value of the lines.

Considering the small deficit from last year, it would seem that the operating position of the C.N.R. at the moment furnishes scant justification for a further increase in freight rates. However, that position could be altered by the 40-hour week to be inaugurated next summer if it cost the railway more than the increase in revenues assured by the defence boom.

## Testing, Testing, Testing

THAT NEWS ITEM FROM MISSOURI about the minister who slept through his own sermon has a ring of human fallibility about it that gives it authenticity. The pastor in question had made a tape recording of his church service. Playing it through to learn how he sounded, he dozed off and was only awakened by the choir's closing hymn.

On the basis that we should put ourselves in the place of those we would help if our assistance is to be most

effective, that pastor's effectiveness in his chosen field must now be greatly enhanced. But we admire most his candor in admitting the experience. In the solitude of his study the occurrence could have passed unnoticed by the outside world. He chose to make it public. As a man from Missouri he had to be shown. Now he knows, and the members of his congregation may be expected to reap the benefits of his research on many a Sunday to come.

## Loose Ends

By BRUCE HUTCHISON

THE picture of domestic bliss recently painted by Mr. Anscomb in his budget speech can only be described as poetic. He says he wishes every British Columbian would buy a hundred-dollar bond of the provincial government and a bottle of his excellent Saanich wine.

Only a talented painter could picture the British Columbian sitting comfortably under his own vine and fig tree with a bond in his pocket and a bottle in his hand.

Only a poem, another Rubaiyat of Omar Khayyam, could adequately present the lovely spectacle of the bond holder idly clipping his interest coupons and sipping his innocent drink while the mad world streams by.

THAT distinguished local poet, Mr. Braithwaite Spinks, has constructed a few appropriate rubaiyats, among them this fragment:

A Book of Taxes underneath the Bough,  
A Jug of Wine, an interest slip and Thou

Beside me clipping in the Wilderness...  
Oh, Wilderness were Paradise enow.

The scene, laid in some quiet Saanich grove, is indeed poetical and really should have been recorded in verse rather than in Mr. Anscomb's sober, businesslike prose. It is fortunate for the taxpayers of British Columbia that Mr. Anscomb is a businessman and not a poet, but unfortunate for the art of poetry, since a great poetic theme has been lost in the stern facts and the multitudinous statistics of the budget speech.

IN India finance ministers do rather better by the muse. In Madras the other day the local finance minister, Mr. B. Gopala Reddy, introduced his budget with a song, sung in a fine tenor. Mr. Anscomb started by saying, in the customary drab form of the western world, "Mr. Speaker, once again it is my privilege to move that you do now leave the chair that supply be granted to His Majesty." That is sound stuff, hallowed by tradition, but not as inspiring as Mr. Reddy's singing introduction in these words:

"Harken, O lotus-born!  
Prosper our cradles and  
Kindred and cattle,  
And cherish our hearth  
fires and coffers and corn."

UNFORTUNATELY, Mr. Reddy concluded by budgeting for a large deficit, but a mere mathematical lapse could not dim the glory of his introduction. Mr. Anscomb has a fine speaking voice. One wishes he would try it in song some time. Mr. Spinks, brooding on wine, inflation and the decline in the actual value of government bonds, has constructed another little rubaiyat:

"Well, murr-mur'd one, 'Let whoso make  
or buy,  
My bonds with long inflation have  
gone dry;

But fill me with the old familiar Juice  
Methinks I might recover by and by."

THAT recovery, for the individual, is doubtful. But to the patriotic citizen it is enough to know that his government miraculously recovers whenever filled with the old familiar juice of liquor profits. The original rubaiyat of Omar tells this story of current government quite accurately:

And much as Wine has played the  
Infidel,  
And rob'd me of my Robe of  
Honour, well,  
I wonder often what the Vintners buy.  
One half so precious as the stuff they  
sell.

Which means in prose, as I take it, that when the citizen is overwhelmed by the spectacle of taxes and the inflation of the currency, he can buy in the liquor stores, however diluted, a real bargain in forgetfulness.

Ah, Herb! Could you and Abbot  
but conspire,  
To grasp Inflation's Scheme of  
things entire,  
Would you not pump it up again  
And make the price of goods  
still higher!

ALAS, the hundred-dollar bond which Mr. Anscomb would like every man to own is no longer worth what it used to be. Its annual interest at 3 per cent will hardly purchase a bottle of spirits a year, though it might provide a couple of bottles of wine. In 12 months that would hardly be enough, whisky or wine, to divert a man's mind from the spectacle of inflation. The bond purchaser may be inflated with alcohol but the bond alas is deflated in opposite proportion. Our government just take the crash and let their credit go.

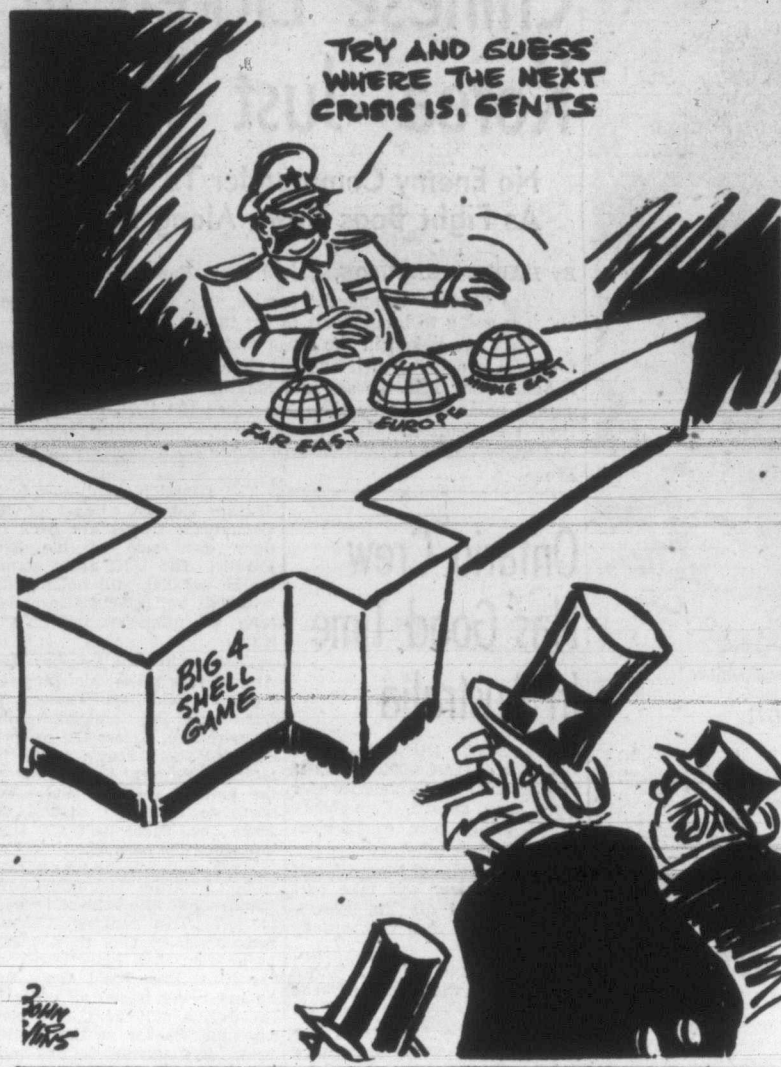

NEVERTHELESS:  
"Come fill the Cup and in the fire  
of Spring  
Another morsel of Inflation fling;  
The dollar bill has but a little way  
To flutter—and the bill is on the  
wing.  
The price index still writes; and,  
having writ,  
Moves up! nor all your plety and Wit  
Shall lure it back to cancel half  
a cent  
Nor all your tears wash out a  
Word of it.

Nay, let Omar be our national treasurer, let our budgets be sung and where the dead taxpayer once sat at the feast, "turn down an empty Glass."

"Truth is our T-bomb," says Eisen-hower. The only trouble is getting it to the target.

It was different in the old days. A home wasn't considered complete until it had a big front porch.

## The World Situation In A Nutshell

## As Our Readers See It

### WORTHY CAUSE

The members of the senior board of the Victorian Order of Nurses wish me to convey to you their thanks for your publicity about our rummage sale.

(Mrs.) MARGERY C. DEASUM,  
Sale convener, Victorian Order of Nurses.

### HIGH TIME

Really, Mr. Editor, one wonders where this Government over the Bay is leading us.

Elaborate schools with unnecessary frills and extravagances—inefficiency plus with further hospitalization insurance increases—recent salary increases to civil service heads.

And the latest B.C. civil servants' conference with the cabinet for further increased salaries.

Never before has there been such an orgy of spending on the part of the ministers of the Government.

It is more than high time they called a halt to this spending the people's monies.

JOHN PLAUNT.  
R.R. No. 5.

### PRIVATE BILL NO. 11

There is a Private Bill No. 11 before the Legislature of this province called the "Bill of Rights Act." This is most insidious and the public should understand where it will lead.

This type of legislation is often referred to as "fair employment practices legislation." F.E.P. denies the employer the right to hire whom he pleases, people he can trust and with whom he enjoys working.

Legislation of a similar character was first imposed upon the Russian people by the Bolshevik regime. Its essence is compulsion rather than inducement.

The timing and co-ordination of this present campaign to push through F.E.P. legislation in many provinces and states, suggests large scale planning behind the scenes. Joe Saltsberg, Communist M.P.P. in Ontario, in the January 15, 1951, red "Tribune" said: "The government is extremely sensitive to mass pressure at the present time and now is a favorable hour to develop the broadest, most intensive popular campaign for the passage of a Fair Employment Practices Act."

This act will not create one job. Why should Canadians be compelled to hire and associate with those with whom they do not wish to work? If this act passes it will only result in making "minority conscious" those who have never contemplated the idea before.

WM. J. CLARK.  
P.O. Box 340, Victoria, B.C.

### REPLY TO CRITICISM

With regard to the letter signed "Honesty" and dealing with elections at Victoria College, I have been instructed to make a reply through your columns.

The letter in question infers that the College elections are improperly administered and that illegal electioneering can be practiced with impunity. Such however, is not the existing state of affairs. Any infraction of the election rules could result in immediate disqualification of the candidate.

The greatest care is taken to ensure that elections at Victoria College are carried out in a legal and ethical manner.

VERA STANLEY,  
Secretary A.M.S., Victoria College.

### CHEAPER AT HOME?

Will you publish this letter. I am not paying this iniquitous hospitalization fee. I cannot afford it out of a small income.

My husband was in hospital from Dec. 6 to 17. They sent him home in an ambulance at 10.30 at night. He died exactly two weeks later.

We had paid our fees in good faith. What is the good of hospitalization for poor people without influence? If I were ill I could stay at home more cheaply with a practical nurse to take care of me.

MAY E. MATTICK.  
538 Princess Ave.

### RESCUE COMMENT

Recently in your paper there appeared a letter by one Lillian Heywood apparently connected with the local humane association and who was doing her best to make excuses for that association not having helped to rescue a cat that was unfortunate enough to have found its way to a very dangerous position on a power pole. I have traveled all over the world and am intensely interested in the world of humane associations wherever I go, but Victoria is the only city where I have been that I feel that I do not want to even make the acquaintance of those in charge of the local humane association.

I feel quite sure that the members of the local association, as well as other people interested in animals, cannot be at all happy or satisfied in the knowledge that one of their representatives has to define "cruelty" before any help is given—let alone offered. At least people in a properly civilized community expect some effort to be made by such an association to have the rescue effected.

G. STANLEY NICHOL.  
Los Angeles, Cal.

## Christianity And Democracy

Allow me to comment briefly on Mr. Pepper's usual diatribe against anything Christian and constructive; this time against your admirable address to the Y.M.C.A.

He pretends to know history, yet he states that the Dark Ages lasted for 1,600 years, actually they only lasted for roughly 700 years.

Then he states that Christian Protestants burnt nine million innocent women for witchcraft. This is the highest figure given by any historian, by Dr. Sprenger in fact, who was anti-Christian and prone to exaggerate anything against Christianity. However Dr. Sprenger's exaggerated guess (for in the Dark Ages when much of the burning was done few records were kept) covered the years from 350 to 1750 circ., when the laws against witchcraft were repealed. For only 200 of these 1400 years (1550 to 1750 circ.) had Protestants any power.

Therefore if they burnt one million that is a generous estimate.

History proves that you, Mr. Editor, are right in stating that true democracy is a product of Christianity, and can only be attained and kept at its highest by a general acceptance of the moral and spiritual teachings of Christianity. As William Penn said: "If men are not ruled by God, they will be ruled by tyrants."

This saying has been proved to the hilt during the past 30 years, especially behind the Iron Curtain. There the rule of atheists, for every member of the Communist Party has to be an atheist, has meant not the judicial murder of at most nine millions in 1400 years, but of at least 20 million truly innocent people in 30 years. And this in the enlightened 20th century, not in the Dark and Middle Ages.

HISTORIAN.

## Approaching A Dangerous Corner

By JOSEPH ALSOP From Berlin

THIS tragic but brave city is the best place to think about the projected conference of the Big Four Foreign Ministers. In Washington, they worry about tactics. In Paris, the deputies wrangle about the agenda. But here in Berlin, you see all around you the human and material stakes in the desperate game the Soviets are playing.

In sum, these stakes add up to Germany. Germany nowadays is the key, both strategically and politically, of Western Europe.

To be sure, no one who surveys the scene from Berlin can possibly credit the rumor, so sedulously spread by the Kremlin, that the Soviets will take this occasion to offer the basis of a serious world settlement. In pressing for the four power conference they have had much harder and more self-serving aims.

The first aim has been to delay decision on the vital matter of the German contribution to the defence of the West. In this the Soviets have already triumphantly succeeded, gaining about six months' time thereby. The second aim is vastly more ambitious. The Soviets hope to use the conference itself to divide and disrupt the Western alliance for good and all.

The American policy makers fear that Vishinsky will offer the unification of Germany on the basis of genuine free elections, in return for guarantees of German demilitarization and withdrawal of all occupation forces.

### READY AS EVER

Meanwhile the Russian armies would retreat only a few score miles from the German border. They would be as ready as ever to flow out again over a Germany left with no defences whatever, and a Western Europe exposed by the loss of the German glacis. Thus superficially, Washington fears (which are authoritatively reported to be shared by Chancellor Adenauer) would appear to be justified.

On the other side of the ledger, however, are three still more important items of evidence. First the Soviets have not only continued exploitation of the East German uranium mines in the Erzgebirge; they have also recently opened a large number of shafts producing very low quality ore. This suggests that the Erzgebirge resource is still vital to them and cannot be gambled with.

Second, Gromyko at Paris, contrary to the Prague line, has laid all his stress on German demilitarization rather than "German unity." Third, the East German leaders, Grotewohl, Ulbricht and Gerhard Eisler, have lately each gone out of the way to define "free elections" as the kind of transparent farce that would deceive nobody and receive no consideration at any four power meeting.

On balance, therefore, it appears more likely (although very far from certain) that the Soviets will avoid the great gamble with East Germany that has worried Washington. Unfortunately, however, there are other tactics, equally menacing, which are also open to the Kremlin. These require discussion in another report.

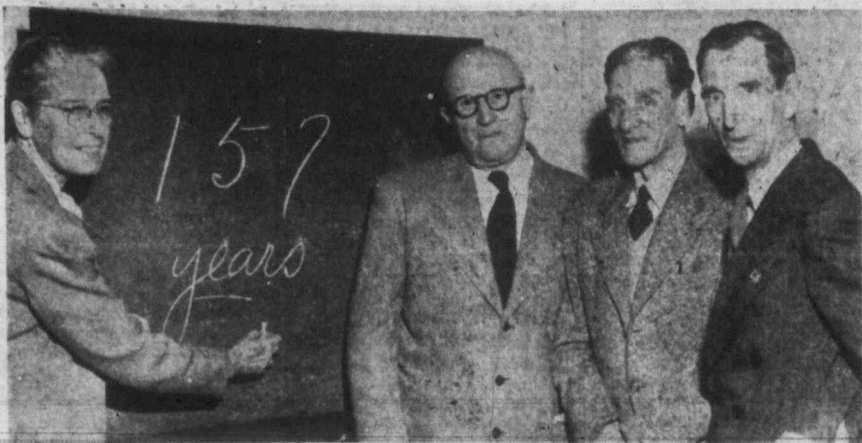

## Ups And Downs

By BRIAN A. TOBIN

"EVERYBODY, I suppose," said the Elevator Man, "has been out to tea at some friend's place and been handed a teaspoon with a word or two engraved on it. I know one respectable family that has a couple of spoons marked 'U.C.' for Union Club. You often see spoons with C.P.R. on them or other tell-tale initials. And towels—C.P.R., C.N.R., Y.M.C.A.—there's no end to the letters and the alphabetical alphas that go with them. Of course, many of the things are come by quite innocently—a serviette stuck in a pocket thinking it was a handkerchief, a towel rolled up in a hurried departure from a hotel room or train washroom. And a lot of these possessions seem to get established all by themselves. Nobody knows how they arrived in the family's inventory. 'Oh, we've had it for years,' is the best origin that can be traced. They are just one of the little mysteries of life and in time are accepted, like any other free contribution. Going up!

"That may be," said the Elevator Man, "the only answer to the question of how the British House of Commons dining room is using some tablecloths marked 'Milwaukee University Club.' One of the Commons members wants to know. Maybe they were part of a laundry-bundles-for-Britain movement. Maybe they're on lend-lease. Maybe it's just a case of 'Oh, we've had them for ages.' Lower main!

"It's a fact," said the Elevator Man, "that many of our most familiar possessions come in that category. We don't know where we got them, but we'd hate to give them up. Where did you get your habit of generosity or meanness? How did you come by your ability to grin when things are tough or the quirk that makes you take things too much to heart? Where did any of your character and qualities come from, and how many of them have got somebody else's mark on them? So much of what we think is essentially ours has merely been stolen, borrowed, picked up or just acquired. Makes you hope you've done your visiting in the right places."

### Plenty Of Teaching Experience Here

In place they are best known—before blackboard—four retiring Victoria High School teachers note total of teaching years they represent. From left: Miss Mary Hamilton, 38 years; W. Ernest Cook, 36 years; William Roper, 41 years, and Hubert Cumberbitch, 42 years. Total: 157 years.

## Four Popular School Teachers, With Total Of 157 Years' Service, Retire

By JIM McKEACHIE

Victoria High School won't quite be the same when the fall term opens next September.

Missing from the ranks of the teachers will be four well-known to practically everyone who attended the school during the past 35 years—Miss Mary Hamilton, Hubert Cumberbitch, W. Ernest Cook and William Roper.

The four educators already are beginning to look back over their teaching days, recalling students, bright and dull, who have come under their guidance. Many of those same students have made a name for themselves in their chosen careers. Some are now colleagues also teaching at the Fernwood Road Institution.

The teaching years of the retiring four total 157. New Westminster-born Miss Hamilton has 38 years, 35 of them at Victoria High. Her specialty is teaching French.

Mr. Cumberbitch started teaching 42 years ago in his native Yorkshire, came to B.C. in 1913, and has been an English teacher at V.H.S. since 1923.

Mr. Cook has taught for 34 of his 36 years in the profession at the local high school, and Mr.

Roper has been instructing there in physical training for 24½ of his 41 years in the business.

The teachers were modest about telling of classroom "incidents," but "Cumby," as Mr. Cumberbitch is known almost exclusively by the student population, gave his usual throaty chuckle and mumbled in the English accent he has never lost, something about "the best ones are unprintable."

He'll be 65 in May, while Mr. Cook and Mr. Roper reached that retirement age in November and January, respectively.

### ALL HELPED SPORTS

The three men who will wipe the blackboards clean for the last time in June have been prominent in overseeing high school sports.

Mr. Roper needs little elaboration. As physical training instructor, sports were his natural field, but he specialized in extra-curricular handling of track and field, boxing and gymnastics.

His famed "Thirty-Nine Steps" caused many a frisky student to tow the line instead of getting out of it. The "Thirty-Nine Steps" was the penalty for misbehaviour in class, and consisted of running up and down the steps leading from the locker room to the gymnasium.

Mr. Cook coached basketball, baseball, rugby and hockey teams, and was manager of the Victoria Blue Ribbons hoop team when it won the Canadian title in 1933.

Mr. Cumberbitch's field has been exclusively soccer. "Cumby," incidentally, said his plans for retirement amount solely to doing "absolutely nothing—just getting the dividends for years of teaching."

Mr. Roper, whose experience includes several years of army life, including a stint both on course and on staff at Aldershot, plus some time in South Africa, will return with his wife to his native England aboard the Empress of Scotland in July. It will be his first visit "home" in 25 years.

## Concert Party To Give Shows At Fort Lewis

Eleven members of the Y.M.C.A. Red Triangle Concert Party will leave April 6 for a three-day tour of Seattle and Fort Lewis to put on a show for the armed services in Seattle.

The group will put on a show for the U.S. forces at the Armed Services Y in Seattle Friday night, a show at the Marine Hospital Saturday afternoon, at the Y again Saturday night and for the Canadian troops at Fort Lewis on Sunday afternoon.

The group will stage a special show in the Y.M.C.A. Gymnasium at 8:15 on April 4.

## HOME GARDEN

by Jack and Hilda Beasall

The mention of Campanula immediately brings to mind the graceful Canterbury Bells.

Or it may suggest the Chimney Bellflower, or the Harebell, two more members of this deservedly popular family.

But these are the tall sons and daughters suited to the perennial border where their display is in keeping with the other subjects.

### FOR ROCK GARDEN

For the rock garden we turn to the species, the alpine forms with flowers more like stars than bells.

Some are admittedly difficult to handle and better left to the connoisseur. Some are tender, including *C. isophylla* alba which becomes a mound of tiny white stars when grown in a pot, and which makes an excellent subject for window boxes which face north, but needs greenhouse protection during winter.

A fine trailing form for the rock garden is *C. garganica* (named after Gargano, Italy) which bears multitudes of steel-blue starry flowers from June to September. It makes a splendid plant for rocky ledges, although it is equally at home on an old wall, in the paved garden, or in the moraine. Be careful not to confuse with *C. garganica*, *hirsuta*, which needs protection from rain during winter.

Campanula muralis, also called Portenschlagiana, is truly a rock plant for everybody. A single plant quickly grows into a large mass of glossy foliage, covered with bell-shaped flowers from July to August. It will grow almost anywhere in the rock garden.

The Campanulas like an open position in the sun, or at most only partial shade, and love to have their roots deep in a rocky crevice, or below a chip-strewn moraine or scree.

# MacArthur May Be Asked To Hush Up

## Talks On Foreign Policy Issues Heat Up Dispute With Washington

By JOHN M. HIGHTOWER

WASHINGTON (AP)—The dispute that rages between Gen. Douglas MacArthur and the Truman administration over how to win the Korean war has reached fever heat again. The administration may shortly ask the general to clear with Washington anything he says involving broad foreign policy issues.

This may or may not prove acceptable to MacArthur but State Department officials privately say something must be done to prevent a repetition of last week's exchange of shocks and harsh words between Tokyo and Washington.

President Truman circulated last December a firm, government-wide directive declaring that any statement on foreign policy by any official or employee of the government in a speech, article or other public utterance, should be cleared with the State Department. Informants said that order was called to MacArthur's attention at the time.

Friday night MacArthur left Tokyo for the 38th Parallel area of Korea to order United Nations forces to cross into North Korea as tactical requirements made necessary.

### SAID REDS LICKED

Before leaving he issued a statement making a bid for peace talks with the Communists, said the Chinese Reds were licked and incapable of waging modern war and warned that if the United Nations launched attacks on Chinese bases and coastal areas, China would probably suffer military collapse.

This statement caught the State Department completely unawares. It apparently also caught President Truman without advance notice. After several hours of parleying, including a talk between State Secretary Dean Acheson and President Truman, a statement was issued saying Washington had had nothing to do with MacArthur's statement.

The Washington statement said MacArthur had authority to conduct military operations but that political issues which "he has stated are beyond his responsibilities" are being dealt with in

the United Nations and by governments having troops in Korea. The key MacArthur clause which set off the alarm here was that the United Nations could probably succeed in forcing a military collapse of China by a limited coastal-attack and base-bombing war.

## 'Captain Kidd' Relic Proves Youthful Hoax

SHIP BOTTOM, N.J. (AP)—You can forget about the buried treasure in Cedar Run Creek—The Captain Kidd nameplate that turned up last week in a hoax.

Police at nearby Tuckerton said Elwood Cramer cleared things up Sunday. Seems he made the bronze plate himself 10 years ago and threw it in his son's favorite fishing hole as a joke.

The son, Stanley, now 17, found the plate a couple of weeks ago and the old gag finally paid off.

Philadelphia newspapers heard about the "find" and played it big. Jersey shore papers followed suit.

Young Cramer turned the plate over to tavern-keeper and local historian, Charles Fackler. Fackler planned to mention it in a Historical Society Paper at Valley Forge, Pa., next week.

That was when Papa Cramer decided things had gone far enough.

## RUSSIA SENDS SUBS TO CHINA

TAIPEI (AP)—The China Union Press, a pro-Nationalist news agency, said today Russia turned over 60 small submarines to the Chinese Reds two months ago. The agency says it gets much of its information through underground channels.

Noel Chabanel, French Jesuit missionary slain by an apostate Huron Indian in 1849, was canonized in 1930.

## 7 Die In Crash

DOBBS FERRY, N.Y. (AP)—An automobile crashed into a tree on the Albany Post Road Sunday, killing seven persons.

## Here's Why You Get THE KIND OF SHAVE YOU WANT with a Schick Injector Razor

1 The razor head gets right into those hard-to-shave spots, like around your lips. It is half the bulk of most other razor heads, yet shaves just as wide an area.

2 The razor's Guide Bar tightens your skin ahead of the blade so each hair is in the correct position for cutting. No pulling or scraping. No cuts, nicks or scrapes.

3 The keen blade is twice as thick as most blades... able to take a sharper edge and hold it. Each blade is separately honed and stropped.

4 The injector holds the blades in a bath of oil... until you are ready to use them... your fingers never need to touch the blades before you start shaving.

5 Push-pull-click-click—that's how the blade is changed. In goes the new blade, out goes the old—automatically. This saves you several minutes daily.

6 Another way you save time... nothing to take apart or put together... a rinse, and your Schick Injector Razor is clean... ready for the next perfect shave!

**SCHICK INJECTOR RAZOR & BLADES**

\$1.50 WITH 20 BLADES

# MARTEL NEW CHAMPION WINS INTERNATIONAL DOG DERBY

## "Dogs Well Conditioned" Says World Champion

"My wonderful dogs deserve all the credit for their victory in the International Dog Derby in Ottawa. I only drove them. But I trained my dogs all year, and I brought them up to tip-top running condition for the race using Dr. Ballard's Meal Formula. In all my years of raising dogs, and racing them, I have never used a food that compares with it. This meal seemed to give my dogs more energy and endurance and really on the final day, I think they could have gone another thirty miles!"

CHOICE OF *Champions*

Pick the Winner For Your Pet

## DR. BALLARD'S MEAL FORMULA

**Champion MEAL FORMULA**

FILLS EVERY NEED FOR EVERY BREED

If you use dry food for your pet—pick the winner right now—get Dr. Ballard's Meal Formula.

This New Wonder Meal will keep your dog in tip-top condition because it's packed with proteins (guaranteed more than 25%); energized with body building vitamins; and contains all the essential ingredients for a balanced diet.

Easy to prepare—just add a little water. Economical because less Dr. Ballard's Meal Formula is needed to feed your dog scientifically.

Feed alone or mix with Dr. Ballard's tinned foods, kibble, or biscuits. This amazing new Meal is completely odourless to humans—yet has a meaty, satisfying aroma that All dogs love!

Available at your favourite store in two-pound packages, or the economical 25 and 50 pound bulk bags.

To keep your dog full of energy, vitality and endurance, feed him THE MEAL OF CHAMPIONS—DR. BALLARD'S MEAL FORMULA.

## Big 4 Deputies' Parley Magnifying Differences

Delegates Hope Gromyko Will Receive New Instructions From Moscow By Meet Tuesday

By EDDY GILMORE

PARIS (AP)—Three weeks of East-West talks have magnified, not diminished, differences between Russia and the West over two of today's gravest international issues.

"Any other interpretation," said an official of one of the western delegations, "is an ostrich-with-his-head-in-the-sand attitude."

The Big Four Deputy Foreign Ministers decided Saturday to continue their deadlocked discussions here Tuesday, by which time Soviet Deputy Andrei Gromyko may have fresh instructions on Russia's attitude toward a top-level conference.

The two top issues are:

1. Western rearmament, and particularly the rearmament of Western Germany.

2. The level of arms of the four great powers and those of a number of countries allied with them.

Delegations from the United States, Russia, Britain and France met here first March 5. In previously-exchange notes they agreed their job was to draw up a list of subjects which could form the basis of discussion at a Foreign Ministers' conference, designed to ease world tension.

Last week Gromyko pinpointed the issues most interesting to the Russians. They are:

1. No rearmament of Western Germany.

2. Reduction of arms by the

four great powers, including, of course, atomic weapons.

Last week also saw the western powers, particularly the U.S., throw up stonewall resistance to the Russian objectives.

Despite all this, some delegation officials predict some kind of agenda will be decided on in Paris. They say this will result in a Foreign Ministers' meeting probably in Washington. But they aren't enthusiastic about any chances of easing European or world tension.

### STATELY MANSION

The historic Chateau De Ramezay, now a museum in Montreal, was built in 1705 as the Governor's residence.

Going to Austria this summer to represent Victoria district at Boy Scouts' International Jamboree, is Patrol Leader Sidney Bell, 16-year-old member of Victoria Senior Troop, and formerly cub and scout with the North Quadra group. Sid holds the King's Scout badge, gold cords and Bushman's Thong together with many proficiency badges. He is one of five boys being sent to the Jamboree from B.C.

## Europe Faces Greatly Reduced Crop Yield Through Prolonged Wet Weather

(By Reuter)

Farmers across Europe are eyeing rain-soaked fields and wondering how they will make ends meet this year.

After the wettest spring for many years, thousands of farmers have still not planted their crops. Many will be ruined unless the weather improves soon.

One consequence of poor crops this fall might mean increased

food imports from the United States and Canada.

Here is a survey showing how the weatherman has aimed one straight at Europe's breadbasket:

London—The most serious consequences of prolonged rains in Britain will be lower yields of wheat, the National Farmers Union said. Farmers are five or six weeks behind schedule.

Paris—French farmers, though concerned about the effect of heavy winter rain and possible floods in river valleys, do not think their work will be seriously endangered if the rain stops within the next week or so.

Rome—Heavy rain over three months has delayed sowing and plowing in several provinces. Officials are unable to predict what effects floods and delays will have on winter plantings.

Switzerland—All plowing has been completed but spring sowing has been delayed by rains.

Holland—About 10 per cent of Holland's winter wheat crop is estimated to have been lost as a result of bad weather in the last five months. Only 160,000 acres of wheat sown compared with 200,000 last year.

Sweden—Heavy snows in some central and northern areas will delay spring sowing and plowing.

Denmark—Hard frosts and snow have caused delay, but farmers are not yet seriously worried.

## Strikes In France Appear About Over

PARIS (AP)—France's latest wave of strikes appeared to be near an end today. Negotiations for settlement of the 11-day bus and subway walkout in Paris were resumed with hope of success.

The Paris transport strike touched off the series of stoppages that extended to gas and electricity workers and railroad operators. Following a government-ordered rise in the minimum wage level, all ended except the bus and subway walkout.

## CHAWERS HAVE BETTER TEETH

WASHINGTON (AP)—A government doctor has corroborated a Congressman's theory tobacco chewers suffer fewer tooth cavities than those who abstain from the weed.

Dr. Bruce D. Forsyth, associated chief of the U.S. bureau of medical services, told representative E. H. Hedrick (Dem., W. Va.), a dentist, he has found cases where tooth decay has been arrested from using chewing tobacco.

## Red Official Of East Germany Flees

BERLIN (Reuter)—Helmuth Thuemmler, a leading official of the Communist East German provincial government of Saxony, fled to West Berlin today and applied for political asylum.

He was in charge of the government's department for universities and technical high schools.

Thuemmler told investigators in West Berlin he fled from his home in Dresden because he feared arrest by East German state security officials for political reasons.

850 FORT STREET

Jens Jorgenson, Mrs. Jorgenson, Jette and Hans.

## NEW VICTORIANS

by Gwen Cash

Thirty-four years ago, at the age of six and a half, Jens Jorgenson, a Dane, worked for a farmer from 3.30 in the morning until 10 at night, seven days a week, save once a month. Then he walked fifteen miles to spend half a Sunday with his parents and eleven brothers and sisters.

"He was a kind man," said Jens, referring to his master. "I had plenty to eat."

Three years ago Jens came to Victoria. A year later he sent for his wife and daughter Jette. His young son Hans and daughter Jette. Working for a contractor, he has saved enough to make payments on a large house in a good district and is now grappling with the difficulties of converting it into a four-apartment dwelling.

When he came to Canada Jens knew no English. He still speaks it haltingly. Stocky, of middle height, with hazel-green eyes and black spiky hair, there is a gentleness about him at variance with the austerity of his life.

Born in the shadow of Kronborg Castle—the Elsinore of Shakespeare's Hamlet—he left the farm to be apprenticed to a furniture maker for 10 years. By the time the Germans marched into Hillerød (population 125,000), where he lived, he had 15 men working for him and was turning

out exquisite furniture made of rosewood, inlaid with walnut, mahogany and other hard woods in the French style. Instead of bringing much money to Canada he brought many pieces of the furniture he designed.

When I exclaimed at the workmanship, Jens shrugged his shoulders.

"It's nothing," he said. "Many people can do this sort of work in my country." Then he corrected himself—"the country I have left." Jens aims to become a good Canadian.

In telling of the German occupation of Hillerød he said: "They sent all our police to Buchenwald and brought in the Gestapo. So we organized secretly our own police to take care of people."

"It was very dangerous and the days were filled with anxiety. But we fooled the Gestapo many times and saved many people. Only I would not like it to happen again. I would not like it to happen for my son and my grandchildren so I came to Canada, where the children and my wife like it very much."

Young Hans is now 14, Jette is 12. They chatter in English, but do not forget their Danish because their mother still finds it difficult to talk in anything but her native tongue.

An attractive young woman in Edmonton, Mrs. L. J. Morin, at 10820 98th Street, had been suffering with nervousness and indigestion for some time and had not been able to get relief. When Mrs. Morin's druggist was able to get some SARNAK Mrs. Morin started taking it and after two bottles this is what she had to say to this writer:

"SARNAK is the most beneficial medicine I have ever taken. I was bothered with nervous trouble and indigestion and nothing I had taken seemed to do any good. When my druggist obtained SARNAK I started taking it and it certainly made me better. I cannot express in words the appreciation I have for what your SARNAK has been able to do for me."

### YES, YOU SHOULD TRY SARNAK

... as have thousands of others in Canada who suffer from rheumatic, neuritic and arthritic pain, sciatica, backache, lumbago or neuralgia, some minor forms of kidney and liver upsets, bilious dizziness, nutritional anemia, lack of vitality and nervousness caused by these symptoms. SARNAK is so effective for aches and pains and general rundown condition that you usually get results within the first few days.

Make up your mind to give SARNAK a chance to help you as it has helped thousands of others who had gone on day after day suffering. Thousands of bottles of SARNAK are sold every day in Canada. Remember, there are no substitutes for SARNAK. Always insist on genuine SARNAK. In some rural sections where there are few drug stores, SARNAK may be difficult to obtain. Don't pay anyone more than \$1.35 a bottle. Order by mail from your druggist or mail order house to assure yourself not paying grey market prices. If one druggist does not have SARNAK, try another.

(Copyright, 1951, Sarnak Ltd. Advt.)

## Reds Dropping Hints Not Likely To Quit U.N. Now

Situation Much Changed Since Gromyko Took Walkout; Malik Argues For Venue In Paris

LAKE SUCCESS, N.Y. (AP)—The Russians are dropping hints all around the place that they aren't thinking of pulling out of the United Nations.

The idea of a complete Russian—and Soviet bloc—walkout from the U.N. got a boost when Prime Minister Stalin, in his Pravda statement in February, charged that U.S. and British leadership was making the U.N. a war machine.

Russians here said "no comment" when asked if this meant they're getting out.

Speculation over Russian activity in the U.N. has risen and waned since Andrei Gromyko took his first walk out of a U.N. body in 1946.

It revived when Jakob Malik and other Russians walked out of U.N. meetings early in January, 1950, and thereafter, over the question of seating the Chinese Reds. It waned when Malik came back to the Security Council last August and tied it up in procedural knots for a month.

But just after Stalin's remark about the U.N., Malik, his deputy, Semyon Tsarapkin, and the delegation Secretary-General A. A. Soldatov, dropped their stand-offish attitude and acted like glad-handers, by chatting with delegates and kidding with reporters.

Malik himself gave what was considered the strongest hint last week that the Russians aren't thinking of pulling out. Fighting an economy bloc that was trying to prevent the 1951 Assembly from being held in Paris, he complained to the Assembly that a New York session wouldn't be quiet enough. "Everybody knows," he said, "that the building of the head-

### ANCIENT SYRUP

KITCHENER, Ont. (CP)—Mrs. D. W. Ward is serving her family with clear, thin maple syrup made 17 years ago. The syrup is a clear amber with no sediment and its lasting high quality is attributed to the fact it was cleaned with milk after it was made.

## WORKED HARD FOR 9 CENTS

NEW YORK (CP)—It looked like a lot of work for nine cents. Secret service agents reported bus drivers pounded dimes until they were the same circumference as a penny. They gave the dimes to passengers who asked change.

When the flattened dimes dropped into the fare box, they registered as pennies, and the drivers pocketed the nine-cent difference.

Don't ask us how they spent the flattened coins.

## Edmonton Couple Asphyxiated

PORTLAND Ore. (AP)—A middle-aged couple from Edmonton, Alta., were found dead in a Portland tourist cabin today, presumably the victims of accidental gas asphyxiation.

They were identified from their belongings as Mr. and Mrs. Garret M. Melkjohn, and were reported to be en route to Carson City, Nev., a coroner's deputy said.

Leslie W. Kalanz, manager of the Shady Acres Trailer Park, said he opened the cabin where the two were staying and found the woman, fully clothed, on the bed. Her husband was slumped at her feet. A gas heater and a gas stove were burning.

The coroner's deputy said the two apparently were preparing

a pot of tea and had turned on the stove oven for heat. He suggested that oxygen in the room might have become exhausted, causing death, or that they had been overcome by leaking gas. Post mortems were ordered.

# VIEWS OF SPORT

By RED SMITH

ST. PETERSBURG, Fla.—Of all the tourist attractions in Florida this winter, the most arresting sight was Venegar Bend Mizell pitching for the Cardinals; the most imposing was the Boston Red Sox bulging their muscles; the most solid and tranquil family community was the camp of the Brooklyn Dodgers; the most terrifying spectacle was Whitt Lockman playing first base, and the liveliest ball club with a chance for the greatest improvement was the New York Giants.

None of the state's natural wonders, such as the snake and alligator farms or the flamingoes at Hialeah or Miss Betty Hutton making a circus movie in Sarasota or the touts at Sunshine Park, makes such a memorable picture as Wilmer Mizell on the mound.

The rookie looks like a left-handed Dizzy Dean. He has Dizzy's droopy angularity and Dizzy's kneesprung walk. "He is six foot three," somebody said, "when he stands up straight, which is hardly ever." He has Dizzy's loose, easy motion, and a singing fast ball. It may be that he doesn't know how to pitch as yet and the army may get him before he learns. But some day National League fans are going to see him, and when they do they will remember him.

## Looked Good Last Year Too

In the flesh, the Red Sox looked like the best baseball team in Florida. Or in America, for that matter. But that's how they looked last March and a year ago last March and another year before that. Given enough time, even a sports writer should take the hint and remember that there are teams named the Yankees and Indians out in Arizona that will play in the American League. Just when the Chamber of Commerce began to fear that the tourists would be frightened away, Leo Durocher abandoned his effort to convert Lockman into a first baseman. It was a noble but scaring experiment.

In one game Lockman took a routine throw from the shortstop and almost forgot to touch first base, kicking the bag as an afterthought just before the batter arrived; he left his base uncovered, rushing resolutely into the infield for a ball which the pitcher handled; he circled warily under a tall pop fly, staggered, stabbed and muffed it.

You'd think a major league ball player, a professional athlete, could learn to be a first baseman. Undoubtedly Lockman could, in time. But it was a new trade to him, and now he's back in the outfield where he belongs and where, perhaps, he can help win a pennant.

## Dressen Hopes Pitchers Have It

For perhaps the Giants can win. If they got the sort of pitching all summer which they had in the last two months of 1950, and if no misadventures befell their rather skimpy outfield, they would win. They are fit and spirited, hopeful rather than confident.

But will the Polo Grounds customers love Jim Hearn and Sal Maglie in May as they did in September?

In the Brooklyn camp is the world's finest collection of pitching arms. To be sure, they were there last year and the Dodgers did not win last year. Yet it does not seem possible that a staff which includes Don Newcombe, Preacher Roe, Ralph Branca, Erv Palica, Joe Hatten, Jack Banta, Rex Barney, Dan Bankhead and the others could fail again.

Charley Dressen has more pitchers than any other manager. All he needs is pitching.

## There Are Holes In The Bench

The best outfield in Florida or anywhere else is an American League delegation representing Detroit. Red Rolfe, however, has a more vexing problem than the similar one which Eddie Sawyer is wrestling with the Phillies' camp.

Sawyer must find a pitcher to replace Curt Simmons, of the United States Army. Rolfe tried to believe that Red Gray and Virgil Trucks, who had some last summer, can hold the bridge in the absence of Art Houtteman. Even if they could, a few injuries could destroy the Tigers, whose bench is dangerously weak.

Reluctantly, the tourist points the car north and steps on the gas. Astern the roar of the surf recedes. The song of the mocking bird fades. The last sound heard is the voice of Bucky Harris hissing Spanish sibilants at the nine Cubans on the Washington Senators.

## WINS TRIPLE HONORS

### George Lane Retains Saanich Shuttle Title

George Lane retained the singles crown in the Saanich open badminton tournament held at Brentwood Saturday by defeating Jim Wells, 15-3 and 15-9. He was a triple winner in the men's, teaming with Rom Knott to defeat Hugh Francis and Stan Richard, 13-15, 15-5 and 18-13 in the men's doubles, and with Mrs. Joyce MacDonald to win the mixed doubles, 15-12, 15-12, over Claire King, and Dave Ascott.

## SECOND TRIPLE

Barbara Rose also won triple laurels, taking the junior women's singles, doubles and mixed doubles. She defeated Sally Pollard, 11-6, 3-11 and 11-3, and with her sister, Phyllis, downed Ellen and Esther Bertelsen, 15-6, 15-8. Her mixed doubles partner was Ron Birch, the pair defeating Ellen Bertelsen and Ron Karadimas, 15-8, 15-8.

Other results follow:  
Women's Doubles—Mrs. J. MacDonald and Mrs. R. Knott defeated Karen Jorgensen and Betty Herrington, 15-9, 15-3.  
Women's Singles—Karen Jorgensen defeated Mrs. J. MacDonald, 11-3, 11-9.  
Junior Boys—Ron Karadimas defeated Ron Birch, 15-12, 15-9, 15-3.  
Junior Boys' Doubles—Dan Francis and Geoff Conway defeated Ed Kaye and George Hearn, 15-3, 15-11.  
Women's Handicap Doubles—Betty Herrington and Miss J. Field defeated Miss L. Book and Miss N. Duncan, 15-10, 15-10.  
Men's Handicap Doubles—B. Ford and L. Parlow defeated McIntyre and Dyer, 15-11, 15-11.  
Veterans' Doubles—Ray Watson and Fred Webb defeated C. Douglas and R. Knott, 5-15, 15-8, 15-11.  
Junior Girls (Under 14)—Ariene Logan, Junior Boys (Under 14)—Don Greenhaigh.  
Handicap Mixed Doubles—Mrs. J. Roth and O. Forbes defeated Miss L. Field and W. Brown-Cave, 15-9, 15-12.

## EDDIE COLLINS PASSES

BOSTON (AP)—Edward Trowbridge (Eddie) Collins, 63, a big name in baseball for 45 years, died last night of a heart condition.

Death came to the vice-president of Boston Red Sox in hospital where he was admitted March 10.

It occurred less than two months after his last public appearance. Feb. 1, when baseball writers honored him at their dinner "for long, meritorious service" to the sport.

## MINOR HOCKEY

Minor Hockey League games originally scheduled for tonight will be played tomorrow night to make way for the Commercial League games tonight.

## Cougars Still Find Plenty To Smile About

As the smiles testify, Cougars are far from down-hearted about their P.C.H.L. semifinal playoff series with Portland Eagles. Seen above are the Cats' "hat trickers," sporting the toppers given by Fletcher's for three-goal

efforts scored during the season. Left to right: Joe Medynski, Ed Dorohoy, Jack McIntyre, Joe Evans and Jerry Cotnoir (who got his for a shutout). Cats whipped Eagles, 4 to 1, at Portland last night.

# Cougars Slug Their Way Back Into Contention

## Goegan, Leger Starry Royals Take Rockets 1-0

By BILL WALKER

PORTLAND—Victoria Cougars slugged their way back into the thick of the Pacific Coast Hockey League semifinals with a vengeance here last night as they whipped Portland Eagles 4 to 1 in a bruising struggle.

The rock-ribbed Cougar defence, sparked by the old master himself, Coach Roger Leger, paced the win with a tremendous checking game. Sharing the accolade with Leger was Flori Goegan, the utility player par excellence who worked double duty. He was invaluable in killing off penalties; took over a defence post when Joe Levine was temporarily put out of action in the second period and scored two goals.

Goegan, who has yet to miss a Cougar game in two seasons, shot the Cougars into the lead in the first period with a breakaway marker. He stole the puck at the Victoria blue line, beat the defence in a great burst of speed and romped in to beat Hec Highton with a flip-shot into the corner.

Bobby Frampton missed two great chances just before the period ended. On one try with the Cougars holding a wide edge in play, Frampton was cheated on a great save by Highton. Seconds later he hit the post on another fine individual effort.

Portland's best chance came from Joe Cuman at the 15-minute mark. Jerry Cotnoir making a brilliant stop. Failing to play what appeared to be an offside pass nearly cost the Cougars a goal early in the second period. Walt Samanski just missed the open corner of the twine as he scooped the puck netward.

Cougars' second goal came on another break with Reg Abbott doing the honors. Abbott took a pass from Stan Long, a stand-out performer at the Victoria blue, sidestepped Hugh Sutherland at centre ice and picked the short side from the right wing.

After holding off the Eagles while short-handed through successive penalties to Leger and Eddie Mazur near the close of the period, the Cougars struck again at 2:49 of the third frame with Joe Evans blasting a rebound home on which Highton had no chance. It was a pretty play with Joe Medynski and Geoff Burman carrying the puck the length of the ice. Medynski forcing Highton to be good on the original shot.

Abbott had tough luck a few minutes later when he hit the post with Highton sprawled on the ice.

With the Cougars short due to a penalty to Levine, Hal Hopper, "the man most Victorians would like to forget," poked home Portland's lone tally through a maze of players at 11:53.

Sheer grit and determination earned Goegan his second goal at 15 minutes. Hemmed in on the boards by two Eagles Goegan fought his way clear to pass to Bernie Strongman in front of the goal. He then slapped in the rebound as Highton outguessed Strongman.

Play was tense in the final minutes as Goegan was chased for fighting with Frank Kubasek but the Cougars weathered the storm thanks to an acrobatic display by Cotnoir.

Cotnoir's performance was overshadowed by the general improvement in the Cougars over the first two games of the series. Never giving the Eagles an opportunity to use their vaunted scoring power, Cougars checked from end to end and were sometimes even brutal in their body checking.

General manager Fred Hutchinson announced following the game that tickets for the fifth

game of the series in Victoria, Thursday would be on sale today.

Fourth game of the series, with the Eagles leading two to one, will take place Tuesday.

## TACOMA LOSE SECOND

Bob Koch, the part-time druggist, filled the prescription late but properly last night for New Westminster Royals, slapping home the overtime goal that beat Tacoma 1 to 0 and evened the post-season semifinals at two games each.

After a rough first period in which 10 penalties were assessed, the teams settled down to clean, fast hockey. During the regular playing time Doug Stevenson batted away 20 shots from the Tacoma goal and Lucien Duchene posted 21 saves for New Westminster. The victory was Dechen's second straight shutout over Tacoma.

Koch punched home his goal at 5:56 of the overtime period from about 18 feet out. Assist went to Ollie Dorohoy and Ken Ulyot on the play.

The fifth game of the series will be played Wednesday in New Westminster and the sixth will be at Tacoma.

## Summaries follow:

**PORTLAND 1-VICTORIA 4**  
First Period—1. Victoria, Goegan, 10:18. Penalties: Webster, Suberland (3-1 major), Masur (2-1 major).  
Second Period—1. Victoria, Abbott (long, rebound), 11:13. Penalties: Hopper, Leger, Masur.  
Third Period—3. Victoria, Evans (Burman, Medynski), 2:49; 4. Portland, Hopper (Cuman), 11:53; 5. Victoria, Goegan (Strongman), 12:15. Penalties: Hopper (3), Levine, Kubasek, Goegan (five minutes, fighting).

Overtime Period—1. New Westminster, Koch (Dorohoy, Ulyot), 5:56. Penalties: None.

**LOS ANGELES (AP)**—Fifty thousand baseball fans, give or take a few thousand, are expected to turn out tomorrow for the opening of the Pacific Coast League's 49th season.

The defending champion Oakland Club scheduled a double-header, one game in the afternoon and the second at night, and all the others will be under the lights. Even Los Angeles' traditional day inaugural has been switched to the arcs.

Oakland opens up against Portland, Hollywood will be at Sacramento, San Francisco at San Diego and Seattle here against the Angels.

For the first time in many years, the coast loop will offer a stream-lined schedule—three-game series for the most part, instead of the customary long-drawn seven-game series.

## SHORTER SEASON

And the season has been shortened from last year's marathon 200 games to 168, stretched over 141 playing dates.

A year ago Seattle opened at Oakland and 11,349 fans attended. The figure may be higher Tuesday because of the two-game bill, because the Oaks are defending champions, and because they have a new manager, the famed Mel Ott of all-time New York Giants renown. Joe Gordon, the old New York

## Toronto, Red Wings Wind Up With Punch

### Rollins Takes Vezina Trophy; Sawchuk Makes Race Of It Up To Final Contest

Detroit Red Wings and Toronto Maple Leafs both scored shutout victories as the regular National Hockey League season ended Sunday night and the results left the Maple Leafs' rookie goalkeeper Al Rollins winner of the Vezina Trophy this season.

The Wings blanked Montreal Canadiens 5 to 0 in a bruising game at Detroit, while Toronto edged Boston Bruins 1 to 0 in Boston. In the other game of windup night, New York Rangers trounced the last-place Chicago Black Hawks 5 to 2 in New York.

## PLAYOFFS TUESDAY

The games did not affect the standings. The front-running Wings meet the third-place Canadiens in one playoff series, starting in Detroit Tuesday. The second-place Toronto team tackles fourth-place Boston in the other series, beginning in Toronto Wednesday.

It was a battle to the wire between Detroit's rookie goalie, Terry Sawchuk, and Rollins for possession of the Vezina trophy, which goes to the netminder whose team has the least goals scored against it.

Rollins got the jump on Sawchuk Saturday night as Leafs downed Boston in Toronto 4 to 1, while Montreal pumped three goals past the Detroit goalie in winning 3 to 2 in Montreal.

That left Toronto with 138 goals against and Detroit with 139. Neither goalie was beaten in Sunday night's contests, leaving

ing Rollins ahead by a single goal.

## CANADIENS IN

Canadiens clinched third place by their Saturday night victory before a highly-demonstrative crowd of 14,172.

The Leafs rang up their Saturday victory before 13,306 fans in Toronto.

Sawchuk played his heart out to gain his 11th shutout of the season as the Wings blanked the Canadiens in Detroit Sunday night before 13,753 fans. But his best wasn't good enough to overcome that one-goal margin held by Rollins.

## GONZALES TOPS KOVACS IN DEFENCE OF CROWN

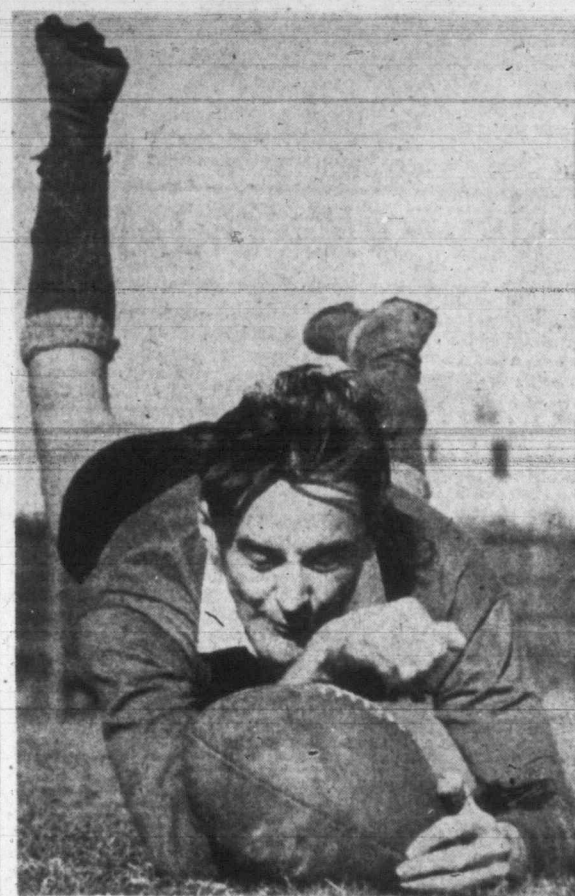

PHILADELPHIA (AP)—Pancho Gonzales, world's professional tennis champion, needed all his shots, hustle and savvy Saturday night to defeat Frank Kovacs, 6-4, 6-4, in opening defence of his title.

The Los Angeles champion and his Oakland, Calif., opponent, met in the second match of the opening round of a five-night round-robin championship tournament.

In the opening match, Jack Kramer defeated Bobby Riggs, 6-3, 6-5.

Pancho Segura disposed of Welby Van Horn in 33 minutes, 6-3, 6-0.

Under tournament rules, six games automatically wins a set.

## Oops! It Nearly Got Away!

Bob Dunlop, second row scrum for U.B.C. Thunderbirds, will be seen in action here next Saturday when Victoria College Vikings host Varsity in the first annual "home coming" rugby series.

## Mercurys Earn Right To Meet Nanaimo Squad

EDMONTON (CP)—Edmonton Mercurys trimmed Yorkton Legionnaires 4 to 1 Saturday night to enter the western Allan Cup semifinals against Nanaimo Clippers.

Mercurys, 1950 world amateur hockey champions, spotted the Saskatchewan titlists a 1 to 0 first-period lead on a goal by playing-coach Scotty Cameron and stormed back with two goals in each of the remaining periods. Bob Watt, Ab Newsome, Harry Allen and Dave Miller were the marksmen.

The Edmonton club lost the first game of the best-of-five series at Yorkton, evened the series in the Saskatchewan centre and wrapped it up here.

## Bests Own Swim Records

NEW HAVEN, Conn. (AP)—John Marshall, Yale's swimming ace from Australia, Saturday night improved in two of his own world record performances—the 400 metres and 340-yard freestyle.

Competing against time in Yale's 25-yard pool, Marshall swam the 400 metres in 4:26.9. His listed record is 4:29.5.

Marshall raced the 440 yards in 4:28.1. His international standard, recorded last year, is 3:51.

Saskatoon 3, Calgary 6.  
(Saskatoon in tie with Calgary for first place in round-robin series.)

## MAYNARD TROPHY WINNER

The Maynard trophy, for 18-hole handicap play at the Gorge Vale Golf Club, was won Sunday by Tommy Valentine, who carried an 87-22-65. Runners-up were Dick Jefferson, 86-20-66, and Laurie Greenwood 89-22-67.

# Tiremen, Co-ops In Sudden Death

It will be "do or die" at the Memorial Arena tonight for the Commercial Hockey League Fishermen's Co-op and Douglas Tire. Both have won one game in the best-of-three semifinals; tonight's contest will be for the right to meet Civil Service in the finals.

Civil Service earned the right to enter the finals Saturday when they eliminated Gladwell Meteors by winning the second game of their semifinal bracket 5 to 2.

On the same card, Douglas Tire upset Co-ops and forced their series into a third game when they outscored Fishermen by the same 5 to 2 score.

## INVOKES WHAMMY

In the first tilt, Douglas Tire invoked the whammy they have used on Co-ops on other occasions during the season.

The maroon-shirted Co-ops never really got going, their two goals coming on breakaways that caught Tiremen's defence napping. Tiremen started fast and held the offensive through to the last 10 minutes, when they lay back to protect their lead.

## GOALS BY KEN GUNTER, ED LAW AND DENNIS CARROLL PUT DOUGLAS TIRE AHEAD 3 TO 0 WHEN AL SMITH DENIED THE TWINE FOR CO-OPS EARLY IN THE THIRD PERIOD. THE GREENSHIRTS ADDED TWO MORE, OFF THE STICKS OF ELPHICK AND RITCHIE BEFORE THE CO-OPS SWANSON-LA-CREE-VARGA LINE GOT THROUGH FOR THEIR FIRST MARKER, THE LAST GOAL OF THE GAME.

## VALIANT BATTLE

Meteors put up a valiant battle before bowing to Civil Service. The scoring saw-sawed through the first two periods but superior staying power paid off in the third canto for the Deskmen.

Third and final game between Douglas Tire and Co-ops is set for the Memorial Arena at 8:30 tonight.

## SUMMARY FOLLOWS:

**METEORS 5, CIVIL SERVICE 5**  
First Period—1, Civil Service, Davyduke 4:40; 2, Meteors, W. Jensen 10:30; 3, Civil Service, Davyduke 15:30. Penalties: Thomas, Davyduke 8:47; 4, Civil Service, Morrison (Kestis) 17:30; 5, Meteors, W. Jensen (Thomas, Kovajsky) 18:51. Penalties: Davyduke, Gordon.  
Third Period—6, Civil Service, Kestis; 7, Civil Service, Coulter.

## DOUGLAS TIRE 5, CO-OPS 3

First Period—1, Douglas Tire, Gunter (Law, Markey) 15:30. Penalties: Reynolds, Shrewsbury, Elphick, Varga.  
Second Period—2, Douglas Tire, Law (Gunter, Markey) 11:26; 3, Douglas Tire, Carroll (Elphick, Ritchie) 17:30. Penalties: Gunter, Bertrand, Nelson, Bertrand.  
Third Period—4, Co-ops, Smith (McBeath) 8; Douglas Tire, Elphick 4:34; 5, Douglas Tire, Ritchie 15:17; 6, Co-ops, Swanson (La Cree, Varga) 12:48. Penalties: Andrew, Grant, Nelson.

## FIVEPIN TOURNAMENT GOES TO VANCOUVER

REGINA (CP)—The 1952 Western Fivepin Bowling championshipships have been awarded to Vancouver.

Ed Percy of Vancouver was elected to succeed Bill Hawrylak of Regina as president of the Western association. Other officers also are from Vancouver—Wes Maxwell, secretary, and Mary Cherry, secretary.

## DARK HORSE ENTRY

### Porky Griffin Dumps Leaders In Ski Show

BANFF, Alta. (CP)—Porky Griffin of Montreal upset the apple-cart in Saturday's Olympic trials on Banff's Mount Norquay when he placed first in the slalom event ahead of favorites such as Bob Richardson of St. Adele, Que., and Gord Morrison of Banff with a spectacular time of 1:50.4.

Richardson, who ran first in the two previous events, the giant slalom and downhill, placed second behind Griffin with his run clocked at 1:52.5. Morrison surprised everyone as he fell from his usual placing of second and third to eighth position.

John Clifford from Ottawa has been steadily improving his position in the eyes of the judges with his excellent run to third

## U.S. Sweeps Figure Skate Championships

CALGARY (CP)—United States skaters dominated the North American figure skating championships which ended here Saturday night.

The men's title went to Dick Button of Boston, while 16-year-old Sonya Klopfer of New York took the women's crown.

The Kennedy kids, Carol and Peter, of Seattle, won the pairs championship and the dance competition was taken by Carmel and Ed Bodel of Berkeley, California.

The Americans also clinched the runner-up positions in every thing but the women's singles.

Suzanne Morrow of Toronto prevented a clean sweep by the visitors, placing second behind Miss Klopfer. Third spot went to Tenley Albright of Boston.

## DON FORMAN ARRESTED; HOOP FIX

### 14th Player Taken In Gambling Expose

NEW YORK (AP)—Don Forman, former New York University basketball player, was held today as a material witness in the still-growing scandal over the fixing of college basketball games.

Forman is the 14th player or former player involved in the investigation of bribery by gamblers trying to rig basketball scores at New York's Madison Square Garden.

He acted as an intermediary between gamblers and players on the City College of New York team "in advance of the 1950-51 season," the prosecutor's office said. Judge Jonah J. Goldstein set \$5,000 bail.

Forman, 25, played at N.Y.U. from 1944 to 1947.

## TRIED APPROACH

The district attorney's office gave no details as to which basketball games were involved in Forman's case but said he was being held because of a grand jury investigation which showed he was conversant with attempted fixes before the 1950-1951 season.

Forman, a spokesman for the district attorney said, tried to establish "a corrupt contact with players in behalf of persons anxious to make a 'fix.' The 'fix' was never consummated and the action was only an approach."

Since the bribe scandal first broke early this year, players or former players at four New York City schools have been involved—N.Y.U., City College, Long Island University and Manhattan College.

Forman is the second N.Y.U. player involved. Two were from Manhattan, six from Long Island, and four from City College.

It was emphasized by the district attorney's office that Forman's case was in no way connected with that phase of the investigation involving former convict Salvatore T. Sollazzo's alleged bribery of 11 players.

Forman was questioned regarding "another fixer, not yet arrested," the prosecutor's office said.

## WIN GOLF BUTTON

Joe Pryke and Jack Clark of Gorge Vale took over possession of the city senior golf button at Colwood yesterday by defeating Uplands' Don Gowan and Frank Scroggs, 3 and 2. Best ball for winners was 70, for losers, 72.

## CRICKET MEETING

The Victoria and District Cricket Association will meet at 8 tonight in Room 22 of the Memorial Hall, Vancouver Street at Rockland Avenue. Proposed visit of the Marylebone Cricket Club is the main item on the agenda.

## TEAR GAS QUELLS FANS

BARI, Italy (Reuter)—Police riot squads laid out several hundred fans with tear-gas bombs at a soccer game fight here shortly before the last whistle when the home team was trailing, 1 to 0.

The visiting team ran off the field and into their dressing-room as the crowd surged down out of the stands after them.

The mob broke down the dressing-room door and a fist fight broke out. Then police closed in with tear gas bombs.

## ASTHMA RELIEF

No need to wheeze, gasp, cough, choke—Templeton's RAZ-MAN, lozenges, the surprising phlegm-giver you quick comforting relief. Lets you sleep restfully on your back. Recommended by users for Hay Fever and Bronchitis.

## COLWOOD WOMEN'S GOLF

In the first competition of business women's play at Royal Colwood Golf Club yesterday, Mrs. C. Denham, with a 104-15-89, led in the silver division, and Mrs. V. Kercher, 112-36-76, paced shotmakers in the bronze division.

In the "New Year's Vase" competition at Uplands Golf Club during the week-end, Mrs. G. Lovatt defeated Mrs. R. L. P. Cocke in the "Water-Edictic" play.

Mrs. H. L. Woolson was the winner, with Mrs. M. Whyte runner-up.

## "ARNOLD" FERGUSON

LOOKS FORWARD TO A GREAT YEAR WITH HIS 1951 SHAMROCKS

### Another Big Year For The Irish

Coach Arnie Ferguson is a hard task master as he puts his lacrosse crew through their paces in pre-season workouts. Ferguson has been playing basketball all winter with the cage edition of the Shamrocks, and has turned out for

the odd soccer game to keep himself in shape. When the Irish take to the floor May 2 in the opening game of the Inter-city Lacrosse League, there won't be a harder man in the game than the old maestro himself.

## Jack Adams Made Gamble Pay Off; Broke Up A Champion, Built Anew

DETROIT (AP)—They say "never break up a champion." But manager Jack Adams of Detroit Red Wings broke one up and it hasn't hurt him so far in the National Hockey League race.

He's out to prove in the forthcoming Stanley Cup playoffs that it didn't hurt him at all. Adams throttled most of the skeptics, who criticized his getting rid of eight players from last year's champions, when he went out and clinched the N.H.L. title last week.

Now he'll get his chance to vindicate himself 100 per cent. The Detroiters will enter the Stanley Cup playoffs starting in Detroit Tuesday as favorites to win the eliminations—and the title of world champions of hockey.

## ONLY TWICE

Only twice in National League history has a team grabbed both the league championship and Stanley Cup two years in a row. Each time it was Detroit—the Red Wings winning both honors in 1935-36 and 1936-37. A year ago manager Adams

lads swept to the N.H.L. title while winning 37, tying 14, and losing 19. Then they pocketed the Stanley Cup by taking two full seven-game series from Toronto and New York.

After that sweep Adams surprised everyone by breaking up

his champions. Of the 18 men on that club, only 10 survived the wholesale changes.

At the time Adams said: "The Wings are stronger—even a great team such as we had could be better. And a better team is what we'll have now."

## PLENTY OF BEERS

Comments on the trades ranged from severe criticism to outright skepticism on the part of Detroit fans.

Gone were star goalie Harry Lumley who had been peddled to Chicago. Adams said he'd take his chances on a hot-shot rookie from the farm system, Terry Sawchuk.

Also dealt away were Jack Stewart, Pete Babandó, and some bright young prospects in the farm system.

Adams added some new blood to his 10 holdovers. The newcomers included Sawchuk, Marcel Pronovost, Gaye Stewart, Metro Prystal, Bob Goldham, Vic Stasiuk, and Glen Skov.

This outfit produced a better record over the regular season than the team of a year ago. And Sawchuk, Adam's big gamble, became one of the season's prize rookies.

"That's the trouble with training in the spring; notice how this time of year you don't feel like doing a darn thing, Chief?"

## EVEN COACH NEVER SAW A SHOT LIKE IT

### MacDonald's Win Coast Hoop Title

The coach's daughter came up with a shot even her father hadn't seen her shoot before, but the underhand toss, plus a more orthodox two-hander by Mrs. Pat Metcalfe, gave MacDonald's Senior "B" club the coast title.

Mrs. Metcalfe, nee Yeamans, offspring of Coach Wally Yeamans, sunk four of her seven points in the final canto in the second of a two-game total-point series against Vancouver Majorettes on the mainland. And those points, late in the game, enabled the local girls to overcome a first-night five-point deficit and win the hard-fought series, 84 to 82.

Despite a 26-point effort Friday night by Pat Mason, MacDonald's lost 50 to 45. Mason came up with 13 points Saturday, nine of them on consecutive free throws, and with Evelyn Slater adding 11, plus Mrs. Metcalfe's important contribution, gave the Victorians the right to meet Trail for the provincial title.

Though the finals are slated for the coast, there is a possibility MacDonald's may journey to the interior centre for the games.

In Saturday's game, a third-quarter outburst which netted the 13 points against seven for Majorettes, pulled the locals back into contention and set the stage for the close finish.

## LINE-UPS FOLLOW:

MacDonald's: Knowlton 2, Mason 26, Metcalfe 2, Peterson 5, E. Slater 6, L. Slater 4, Bennett, Sherman, Total—45.  
Vancouver: Bailey 4, Fennie 15, Maherno 4, Begouch 14, Richardson 2, Smith 4, Swarton 2, Raituma 4, Total—50.  
Friday's game: MacDonald's: Knowlton 2, Mason 13, Metcalfe 1, Peterson 5, E. Slater 11, L. Slater 1, Bennett, Sherman, Total—39.  
Vancouver: Bailey 4, Fennie 4, Maherno 1, Begouch 7, Raituma 2, Richardson 1, Smith 10, Swarton, Total—32.

## ONE-SIDED SCORES

### Wests Repeat Victory; United Blast Dockers

One-sided scores dominated the week-end soccer scene in Jackson Cup competition as Wests trounced Oak Bay, 5 to 0, at Lower Beacon Hill yesterday, and Victoria United trimmed Esquimalt 8 to 1 at Royal Athletic Park Saturday.

In Victoria and District League play, Duncan defeated Heaneys, 8 to 0.

Wests will meet Britannias next Saturday, with the winner clashing with United in the cup final.

## BIG HANDICAP

There was little the short-handed Oak Bay eleven could do to stem the tide of goals. Starting the game with only seven men, they got one more player when it was 10 minutes old, but literally had to run their legs off to keep up with Wests and hold them to a scant 1 to 0 half-time lead—the lone marker being booted home by Lionel Speller.

Whitey Turner contributed two goals in the second half, and P. Fowles another. The other came when Bays' Alex Walker, who played an otherwise sound game, saw the leather skid off his foot into his own net.

A good crowd was on hand for the match.

## DUNCAN FIELD DAY

At Duncan, the up-landers had a field day whitewashing a short-handed Heaney's club, 8 to 0.

Eugene Thorne and C. Modeste notched seven of their team's goals—the former scoring four, the latter, three. Peter Williams got the other.

Saturday, United had things pretty well its own way in handling Esquimalt its worst trouncing of the season. But it was not until the second half that the

winners, who appeared to be in better shape, got rolling to add to a 2 to 0 first-half total.

## TRAVIS HAT TRICK

Ab Travis punched home three goals, with Denny McGee, Wallace Milligan, Tim Walker and Jack Robbins contributing others. The other counter came when Art Young, Esquimalt, backed stopped a shot with his foot, only to have it bounce high into the net.

Bill Walker headed in a pass from Gordy Duncan in the late stages of the match to spoil United goalie Joe Travis' shut-out.

### Mrs. B. Thirwell, Mrs. Kersey Tie In Four-Ball

Mrs. B. Thirwell and Mrs. F. Kersey combined to win low net honors in the annual Good Friday four-ball best-ball tournament at Gorge Vale Golf Club. They had a net 76½.

## Other winners:

Low gross—Miss G. Wilson, and Mrs. R. Stevenson, Comox, 86.

Low net, first nine—Mrs. J. Clark, and Miss L. Harris, 42.

Low net, second nine—Mrs. R. Gooch, and Mrs. R. Rickinson, 39½.

Hidden-hole prize—Miss D. Herberton, and Miss S. Fry.

### BRIDGE LESSON

by Oswald Jacoby

When you're playing a hand at no-trump, it's often a good idea to refuse the first trick or two in the enemy's long suit. This principle, well known to every experienced player, is somehow forgotten by those very same players when they are handling the defense.

In today's hand, East made use of the principle on defense. It wouldn't have helped him very much if South had been on his toes; but South wasn't, and East is sort of practical fellow who knows that even the best opponent will occasionally slip if you throw enough banana skins around his feet.

Declarer let the opening spade lead ride around to his queen and then immediately began on the diamonds. This was sound enough, and it was equally sound for East to hold up his ace, setting the contract.

If East had taken his ace of diamonds earlier, South would have made the contract. He would return to his hand (after East took the ace of diamonds and knocked out the ace of spades) with a diamond and run the rest of that suit. Poor West would have to give up some of his lovely spades in order to save some club protection; and then it would be safe for South to set up some heart tricks.

As it happened, South didn't stop to think. He knew he had a magnificent diamond suit, and he was just going to plug away at it until the cows came home. The cowbells rang for him when he led diamonds for the third time. East took his ace this time and led a spade to dummy's ace.

Now there was no way to get out of the dummy without giving the lead to West. Since West had saved all of his spades, the defense was bound to make three.

#### ♥ ♣ CARD Sense ♠ ♦

Q—With both sides vulnerable, you deal yourself the following cards: Spades A-5-2, hearts A-K-J-9, diamonds 4-3, clubs Q-7-5-3. What do you do?

A—Bid one club. Your partner will probably respond in diamonds, allowing you to bid one heart quite comfortably. If you open with one heart you have no comfortable rebid over a response of two diamonds.

#### TODAY'S QUESTION

After three passes your partner bids one heart. The next player passes. You hold: Spades 8-6, hearts K-5-3-2, diamonds K-9-7-4, clubs 8-7-4. What do you do?

Answer tomorrow.

## Nearby Folk Treat Peron Atom Plant As Joke

NEW ORLEANS, La. (AP)—Residents of the fashionable Argentine resort of San Carlos de Bariloche were reported today to

have treated atomic energy experiments on the nearby Huemul Islands as a joke.

W. McFadden Duffy, assistant publicity director of International House here, who visited the resort centre in February, said townspeople merely grinned whenever the atomic project was mentioned. Duffy returned here Sunday night after a tour of South America.

Argentine President Juan Peron announced Saturday that on Feb. 16 scientists had obtained "the controlled release of atomic energy" at a government pilot plant on Huemul Island.

Duffy said a large sign near

the island read: "Project of Juan and Eva Peron—pilot plant for atomic energy."

A small cluster of buildings comprising the atomic centre was visible from the shore.

## Four Tots Die In Fire

TOLEDO, O. (AP)—Four children died Sunday night in a fire that wrecked a four-room cottage. Their older brother, Sylvester Root Jr., 13, was burned painfully trying to save them.

## Gene Tierney Is Leading On Your Hip-Hip Parade

By ERSKINE JOHNSON

HOLLYWOOD (NEA)—Hips are back in Hollywood thanks to an Italian lass named **Sylvana Mangano** and Gene Tierney is admitting that she's leading the hip-hip hooray parade in "The Mating Season."

Gene, still rounded and Venus-shaped on the set of "The Secret of Convict Lake," made no secret about it.

"My husband," she said, "likes women to be heavy. I weighed almost 135 pounds when I made 'The Mating Season.' It doesn't interfere with the chic of a woman to have curves. And there's no trouble photographing her. I'd like to keep heavy."

"Redzo the Clown," is a hush-hush project at M-G-M for **Red Skelton**. If the deal falls, Red will be directed by **Frank Borzage**, ex-husband of his ex-wife, Edna.

Howard Keel's box-office click at M-G-M should make the casting director of another major studio blush. In 1941 before he landed in the road company of "Oklahoma," Keel was screen tested at the rival lot. He remembers:

"It was one of those 'revolving stool tests.' I sat on a stool and the camera turned while I revolved. The casting director took one look at the test, said 'Impossible' and threw me out."

Bob Hope at a benefit:

"Crosby wanted to be here tonight, but the sawbones opened him up and found a stone. With his luck it's loaded with uranium."

Kipling Story At Royal

Errol Flynn has tailor-made part as fast-riding, hard-fighting and ardent-loving Red Beard of "Kim," Rudyard Kipling's adventure novel, now showing at Royal. Title role of young beggar who poses as Hindu is played by Dean Stockwell.

## HOLLYWOOD REVIEW

### Hoary Gimmicks Press Agents Use Should Be Put To Pasture

By BOB THOMAS

HOLLYWOOD (AP)—This week a Hollywood press agent wrote the 5,000th story along the line, "Even the gatekeeper didn't recognize Gloria Glumf when she reported to work in her make-up today."

The gatekeeper story is one of the oldest publicity stories in Hollywood. It is probably older than movies. No doubt previous gatekeepers and stage guards failed to recognize Edwin Booth, David Garrick, William Shakespeare and even Aristophanes.

Despite the age of the gatekeeper story, it still manages to see circulation in Hollywood every few weeks. And so do a variety of other hoary gimmicks that should have been put out to pasture long ago. Among them:

Announcement that a sequel is being prepared for a current picture. This item is obviously designed to publicize the current picture, while the producers seldom have any notion of making the sequel.

**10-BEST LISTS**  
The selection of a 10-best or 10-worst list. Some of these are legitimate (the ones that appear

in this column, natch). But most of them are designed to promote some agent's client. Look down the list for a name you've never heard of. That's the client.

The twosome. Some romantic linkings may have interest to some readers. But most of such items are designed to publicize the twosome or the restaurant at which they cavort.

The item about an actor and actress being introduced on the first day of a picture and then going into a torrid love scene.

Also overworked is cheesecake or leg art. But who's complaining about that?

## "THE LITTLE BOY FROM NEXT DOOR"

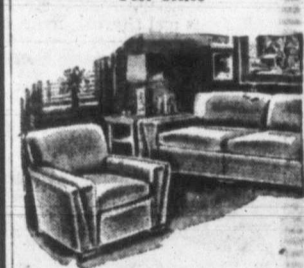

"THIS," said the G.F., with a plaintive bleat, "is the kind of a day to hang out a sheet. The breeze is stiffening

and blowing up, just WHEN will you get my clothes line up? Not much longer, can I do without, I guess maybe, I should send them out." The look she gave me was one of despair, I looked out the window, at the pole lying there. That brutish thing I shoulda junked, 'twas mocking me... it had me skunked. And not content to fill with chills, it was even crushing the daffodils. "Just to look at that thing makes me sick!" I went outside & gave it a kick. With a rusty crow-bar I inched it over, off the flowers, into the clover. Then I sat on this backyard blot, & stared at the sky... & thot & thot. I folded both arms about my knees, I could hear the sheets snapping the breeze. As I pictured them there, all Rinso white, & I saw her face all rinsed with delight. Then back to earth I came was a bang, a feeling I had, they'd NEVER hang. My thinking did further deteriorate when I heard a voice at the garden gate. "Hi, Yah Bob," I said to this lad, I tried to be cheerful & not too sad. Bob is a nussy, at "track" he does score, he used to be known as, "The Little Boy Next Door." Who played with turtles & other trends, neatly wrapped in a column known as "Loose Ends." "You really DO," said Bob, "have a sky-scaper, I've sometimes doubted your stuff in the paper. Well, why sit there, like a whipped pup, c'mon," he said, "let's see the thing up." He grabbed one end, & gave a heave, the strength of the guy, you just wouldn't believe. It sild in the hole, but then got stuck, I for a moment was terror-struck. 'Cause Bob moved closer to balance the weight, "we GOTTA," he said, "get the fool thing straight." It was heavy for the both of us. "Hold it," I cautioned. "I'll go get a truss." I ran for the ladder, then back like crazy, but what happened next I'm somewhat hazy. Yet the ladder supported the colossal weight, Bob grabbed the shovel to excavate. He threw down the spade, & grabbed the pole, when ALL OF A SUDDEN... it sild in the hole. Then with us, right out of breath, I steadied the thing... hung on like death. He seized the shovel, pitched the earth in, I shouted to heaven... "WE WIN... WE WIN." The G.F. ran out, hearing our cries, she couldn't believe what she saw with her eyes. We went in the kitchen, thru the back door. The G.F. and me, and "the boy from next door." As he washed his hands with Tide in the sink, "Robert," I said, "you're going back in the ink. All six of my readers will be glad to know, that soon our sheets, the breeze will blow. Of this whole episode, I'm beginning to tire. I ONLY WISH the up was the wire." "Himmm," said Bob, "I better blow, to a Rugby game I promised to go." Before down the road he vanished in vapor. "I'VE READ ALL ABOUT IT... IN THE PAPER."

## Spain Wants Pact With U.S.; Needs Arms Supply

WASHINGTON (AP) — The Spanish Government is reported ready to sign a direct military alliance with the United States modeled after the North Atlantic Defence Pact.

Generalissimo Franco, officials said, has informed U.S. Ambassador Stanton Griffiths of this during informal talks in Madrid. The Spanish leader is also reported to have expressed willingness to consider a triangular defence alliance linking Spain, Portugal and the U.S.

Both offers, however, were said to be conditioned on an American guarantee that the U.S. will ship Spain enough arms to modernize its armed forces. Diplomatic informants told a reporter that Franco has advised Griffiths:

1. If the U.S. agreed to negotiate a military pact with

Spain, the Spanish Government would be willing to accept all commitments contained in the 12-power North Atlantic Defence Pact.

2. Spain would be willing to consider an attack on any of the 12-member countries as an attack on Spain, and would be willing to provide full military assistance to the threatened country.

3. The Spanish Government is prepared to move its army beyond the Pyrenees into Western Europe, if desired, to help repel such aggression in co-operation with North Atlantic Pact armies.

Although Griffiths is reported to have talked to Franco about defence problems on instructions from the State Department, it appears virtually certain the U.S. will move cautiously before any acceptance of Spain as a military partner.

**IN GOOD HEALTH** except for an old knee injury, Arturo Toscanini spent his 84th birthday Sunday quietly with his family and friends at his home in New York.

**NOT MUCH VARIETY** Ethiopia has just two seasons in the year, a dry winter from October to May and a rainy summer.

## Huge Military Aid Possible For S. America

WASHINGTON (AP) — The Truman administration is urgently considering an unprecedented \$80,000,000 military aid program for Latin America. This was learned today at the opening here of an inter-American Foreign Ministers conference.

The first session of the conference gets under way at about 3:30 p.m. E.S.T. with an address by President Truman. He is expected to appeal for tight western hemisphere unity against communism.

State Secretary Dean Acheson, American member of the conference, has as his chief objective in the meeting an agreement that the central and South American nations will build up their military strength so that they can carry a greater share of the load of hemisphere defenses, now borne chiefly by the U.S.

## Collapses At Font

Rev. George Biddle of St. John's Church is in Royal Jubilee Hospital following collapse, due to an old war injury, at a christening service Easter Sunday.

Mr. Biddle was to have gone to hospital earlier in the week for treatment but put it off because of the heavy duties of Holy Week.

Countless inquiries have been made to Ald. Frank Mulliner, people's warden at St. John's concerning Mr. Biddle. It is expected he will be in hospital for the next few days.

## Fugitive Argentine Newspaper Publisher Enjoys Temporary Exile On Uruguay Ranch

MONTEVIDEO, Uruguay (AP)—Dr. Alberto Gainza Paz, fugitive editor-publisher of Argentinian's muzzled newspaper La Prensa, today was planning to stay in temporary exile at his mother's Uruguay ranch, 150 miles west of Montevideo.

His stepfather, Aaron Anchorenza said Gainza Paz arrived in Uruguay alone last Friday, the day after his arrest was ordered. La Prensa, Argentina's largest independent newspaper and a frequent critic of the administration of President Juan D. Peron, has been closed since Jan. 26, first by a boycott and a strike by government-controlled unions, and then by police order.

Gainza Paz has been declared a fugitive from justice by the committee of the Argentine congress, which last week took over his independent newspaper.

He was cited for contempt of congress because he called congressional seizure of La Prensa a violation of Argentina's constitutional guarantee of freedom of the press. When federal police sought to arrest him to serve a 15-day jail sentence, the publisher had disappeared.

In a telephone interview Sunday, Gainza Paz declined to reveal how he escaped from the Argentine police or to comment on La Prensa's situation.

## French Get Aid

SAIGON, Indo-China (Reuter)—The 6,700-ton American aircraft carrier Sitkoh Bay, guarded by French gunboats and planes, steamed up the Saigon River today carrying Bearcat planes to reinforce French air forces in Indo-China.

## VICTORIAN SPRING

by Cecil Maiden

Letty Merridew, shipwrecked and orphaned off Victoria, in 1862, is rescued by Amelia Murray, daughter of an important official in the young colony legislature. Letty is taken into the Murray home, where she becomes the instant love of Amelia's beautiful stepfather—the lovely Caroline Murray. With Amelia's help Letty is offered a post in the Murray home as governess to the children. On a shopping expedition in Victoria, she meets Caroline's beau—Lionel Jervis Braid, Esq. Mrs. Murray planned a birthday ball for Caroline, at which the betrothal was to have been announced. But after Letty saw Braid walked out. Caroline bitterly resents Letty's presence at "Evensong" Braid is commissioned to track down Indians involved in a massacre on Salt Spring Island and Letty leaves "Evensong" to become a school teacher.

**XLII**  
Letty stood up and smoothed out the full skirt around her. Mr. Cridge and Mr. Carstairs also rose. "Can I press you to partake of a meal with me, sir?" Mr. Carstairs asked without enthusiasm.

The minister excused himself. He had some calls to make in Esquimalt. He would be taking refreshments in the town. "But let us glance into the school-room on the way out," he suggested.

Mr. Carstairs obediently led the way to the school room door, and flinging it open with a grand gesture, as if he were suddenly revealing a masterpiece, stood aside to let them precede him. He then followed, both arms making furtive gestures to indicate that ALL children were to rise; not merely those who were remembering to do so.

At the end of the room, by the squat, round stove (now so warm that they had to edge themselves away from it) the three turned to face the class.

"You all know our dear Mr. Cridge," said Mr. Carstairs, "and what do we say to him?" "Good morning, Mr. Cridge," replied the seventeen assorted children.

"How do you do," beamed Mr. Cridge, his eyes going appreciatively over the small faces. "And this lady, children," went on Mr. Carstairs, "is your new teacher, Miss Merridew."

Letty gave a little bow to the class—or rather two little bows, one to the left and one to the right. And as she looked, she knew that most certainly she would be able to manage and agree with these children.

Seventeen faces looked up at her with unabashed curiosity. There were small, round, six-year-old faces and sharper, more

characterful faces of twelve and thirteen. And there were all manner of masculine and feminine faces in between . . . bright of eye and for the most part pink of cheek . . . above the neat pinafores and dresses (if they were girls) or anything-but-tidy little smocks and a suit or two (if they were boys). There were tow-headed youngsters from the farms and wideawake young children from the naval families at Esquimalt.

And with the sharp and merciless candour of young children, they, too, were weighing up their new teacher; their quick little minds asking a dozen formless questions — and apparently, at last, finding some variety of satisfactory answers, for the smiles that slowly followed the "Good morning, Miss Merridew!" were not called for, like the salutation to Mr. Cridge, and the little side whispers were eloquent of approval.

"And what," asked Mr. Cridge suddenly, "are you learning to day, children?"

Mr. Carstairs' eyes darted in quick anxiety over his brood. And well they might. But, ah! One small child was coming to his rescue! A plump little golden-haired girl said suddenly, and with great conviction, "France is the capital of Paris!"

Mr. Carstairs gazed helplessly up to that Heaven of which Mr. Cridge was an earthly representative.

"Well, well, well!" remarked Mr. Cridge drily. How remarkable!

He swept his eyes over the whole room, then, turning to Mr. Carstairs again, added, "And now, if you'll excuse me, sir . . ."

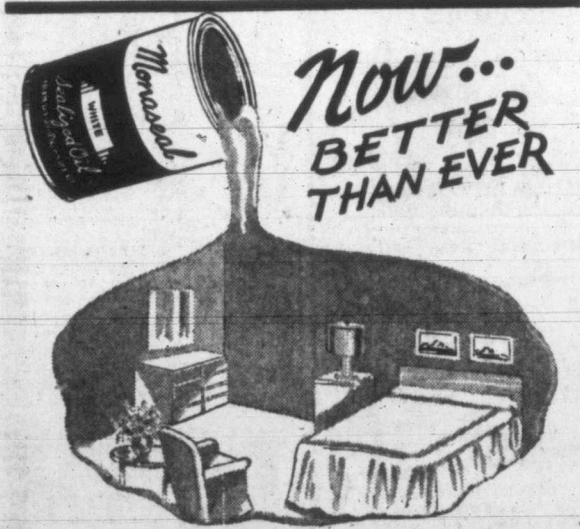

The little procession moved back along the aisle between the

## What's Your Opinion?

By IRVING STRICKLAND AND DAVE STOCK

Do you think the Victoria Cougars of today are as good a hockey team as the Cougars of 1925.

George Robinson, president of Robinson's Sporting Goods, 2929 Quadra Street—

"I haven't seen too many of the games played by this team but there is no doubt the fellows we had before were better stick handlers. Fellows like Fredrickson and Foyston stick handled far differently from anyone you see today. And they shot with their sticks; they didn't slug at the puck like they do today. They play now like shinny. I think the old combination of stick handling and speed made better hockey. The game in the old days was more spectacular.

Lester Patrick, owner of 1951 (and 1925) Victoria Cougars, 242 Linden Ave.

"I believe in living with the present. You'll find that's the best thing to do all through life. Fight fans have been arguing for years over whether John L. Sullivan could have beaten Joe Louis. And they still argue over whether Ty Cobb was a better baseball player than Babe Ruth and whether either of them was as good as Joe DiMaggio. Where does it get you? Sure, the Cougars of old were a good team. But 95 per cent of today's fans don't know anything about them. The Cougars of today are a good team, too, and that's what the fans are interested in. Live for today, boys. You'll find it works. I'm not going to attempt to answer your question."

Johnny Johnson, manager of Evans, Coleman and Johnson Bros., 1860 Bowker Place, former Mann Cup lacrosse star—

"It's hard to tell, but I liked the old style. Of course, that old Dorohey is capable of doing almost anything, the little devil. But then, they haven't got a Cyclone Taylor today. And I've yet to see a goalie as good as Hughie Lehman. He was the greatest of them all. It's a different style hockey altogether. A man stayed on the whole game in the old days. That was seven-man hockey and the Cougars only had nine men on the team.

Edward "Cotton" Brynjolfson, 419 Quebec, former outstanding Victoria athlete—

"Goalkeepers have improved but there are no Walkers or Fredricksons in hockey today. When I say goalkeepers have improved, I exempt Happy Holmes. He is still the greatest goalkeeper of all time in my opinion. Some pick Lehman, but Lehman was a showman. Of course, you must remember, the 1925 Cougars were playing N.H.L. hockey. These boys we have now have got to go up yet. This fellow Leger is doing a good job with them, though. There's no denying that. But I miss the way three men came down the ice in the old days. Now, once they get to the blue line, they bang the puck into the corner.

Darrell Spence, partner in Toggery Shop, Langford, former amateur hockey player—

"It's hard to tell. The type of game is so different. I think they've got just as good hockey players today but they play a different type of game and some of us don't get such a kick out of it. They bring youngsters along fast these days, though. Of course, they don't work them so hard. Probably that's why they last a lot longer. From a player's standpoint, I liked the old style, passing game. But from a spectator's standpoint, I guess there are more thrills in this present

### Health Institute Opens In Victoria

Delegates to Institute for Provincial Public Health Workers, which opened today at Empress Hotel, come from widely separated areas. Above are Mrs. Willa

Stevenson, Williams Lake; Dr. M. F. Marritt, Dawson Creek; Dr. H. S. Mustard, principal institute speaker from New York, and Mrs. Eileen Ramsay, Quesnel.

## Public Health Workers Worthy Of Appreciation

B.C. Health Minister Douglas Turnbull today told 200 of the field workers in his department that they were doing excellent work but that they should make an effort to let the public know about it.

Speaking before the opening session of the Institute of Provincial Public Health Workers, the minister said B.C.'s public health service stood high among similar health services on this continent.

He was concerned that the general public did not appreciate this fact as much as they should. He said the answer to this problem rested upon the shoulders of the field workers. He asked

his staff not only to continue to do a good job but to let people know about their work.

Speaking of hospital insurance, he said, the ordinary citizen did not understand the principle of it and was not aware of increased hospital operative costs.

#### FOR 98 PER CENT OF POPULATION

Deputy Health Minister Dr. G. F. Amyot, reported 98 per cent of B.C.'s population now had public health service available to it.

He reported, too, that much to the credit of the service was reflected in latest health statistics.

He said it was encouraging to note that since 1941, British Columbia's child population had increased 81 per cent. He said previously B.C.'s population was too heavy with older people.

The institute is being attended by doctors, nurses and sanitary inspectors from all parts of the province. They number about 200.

#### VETERAN FOUND DEAD

Dr. E. C. Hart, coroner, is checking the circumstances in the death of Alan H. Wright, found dead on the floor of his room in Glenn Court Hotel, 707 Blanshard Street, Sunday. He was a war veteran.

NEWS OF THE DEATH in Medicine Hat of Mrs. Theresa Bellagente has been received in Victoria. Born in Sarmaio, Italy, Mrs. Bellagente, who has a number of friends here, went to Medicine Hat about 35 years ago. She visited Victoria a number of times.

## Totem Sitting Puts Spotlight On Rugby

Victorians may bask in the reflected glory of Ian Hogarth, Victoria College student, who has established a record of one hour and 50 minutes for totem pole sitting.

"Hoagy," who perched atop a totem pole in Thunderbird Park to publicize the forthcoming U.B.C.-Victoria College rugby game, will sell autographed admission tickets Tuesday afternoon from 2.30 to 4.30 at Cooper's Grill, Fort Street.

Sgt. Thomas Banister and Constable Roderick McNeil chased him down from the totem pole, took his name and address, and left him wondering what will happen.

The game, part of homecoming festivities, will be played March 31 at Macdonald Park.

## Yugoslav Soldier Confesses Spying

ZAGREB (AP)—Rade Mrljenovic, 25, former Yugoslav army captain, pleaded guilty today to being a member of a spy ring directed from Hungary.

Mrljenovic is on trial with four others, including another army captain, Mrljenovic and two of the others face the death sentence if convicted.

## British Burglars Get \$15,000 Haul

LONDON (Reuter)—Burglars robbed Capt. Peter Cazalet, the Queen's racehorse trainer, of jewelry worth \$5000 (\$15,000) at his home at Plaxtol, Kent, Sunday night.

It was the second big Easter robbery in Britain. The other victims were movie star Tyrone Power and his wife, Linda Christian, who lost jewels and furs valued at between \$10,000 and \$15,000 when their London apartment was burgled Saturday.

## Hotel Men Asking Liquor Experiment

Request Government To Use Its Power To Try Wines In Restaurants

The Victoria Hotel Association has joined the "march" on the government for changes in the provincial liquor laws.

A lengthy brief has been mailed to the cabinet over the signatures of James Neely, president, and William Clark, secretary, pointing to weaknesses in the existing system and asking for a new policy.

Mr. Neely told the Victoria Times that the local hotel men think the government should use the power it already has to try on an experimental basis the sale of liquor and wines with meals in hotel dining rooms and better-class restaurants, or cocktail bars.

The experiment should be made in the metropolitan areas (Vancouver and Victoria) and should be limited to better-class hotels and restaurants, he said.

"We think the government should go ahead on its own and try our idea, though," Neely said. "After all, it's taken decisive steps in the matter of hospital insurance without a vote."

In case of a ballot, it was felt that if the ballot was restricted to the granting of licenses to hotels of stated room accommo-

modation, the public would have little reason for opposition.

The hotelmen stressed the tourist angle in its move for liquor law changes, stating out-of-town visitors wanting a "drink or two" should not have to buy a whole bottle.

## Easter Business Brings Rush To Victoria Stores

Easter shoppers really went to town Saturday. Food stores which had been besieged on the pre-holiday Thursday, were again assailed Saturday forenoon by a host of purchasers who were rushing their shopping prior to moving out to the country for the first break of spring.

Such was the rush for food that by early afternoon many shops had run out of cakes and bread.

Apart from food there was an all-Saturday rush for fashions. "We have had an outstanding day," said the manager of one department store.

Women bought Easter bonnets by the hundreds, and there was a more than average holiday demand for clothes of all sorts, dress accessories, and women's shoes.

But it was quite easy to go and buy electrical equipment or other expensive furnishings. The rush for that was met the previous week-end when shoppers took advantage of the last few days before the imposition of tighter controls on instalment buying.

Saanich police said the body had been in the water a considerable time.

## Body Of Woman Found In Elk Lake

The body of Mrs. Lillian Lane, 3421 Cook, who had been missing from her home since early in January, was found floating in Elk Lake, Saturday, by a couple of youths fishing from a row-boat.

Saanich police said the body had been in the water a considerable time.

#### TOOLS STOLEN

A. V. Dent, 3288 Rutledge, reported to city police that his tools, being used on a house demolition job at 962 Yates Street, were stolen during the week-end.

### Golden Harvest Of Spring

Two weeks ago snow lay on the ground and cold grey skies were common in Victoria. Today golden daffodils are basking in the warm sunshine at Beacon Hill Park and have replaced the drifts of snow in little dales and beneath the oaks.

## Crucifixion, Resurrection Told At Easter Service

The story of Christ's crucifixion and resurrection from the dead was told again in song and story when Victorians gathered in churches of every denomination Sunday for Easter services.

New hopes born of Easter provided the theme for many sermons as congregations listened to the message of faith and the triumph of the Resurrection.

Despite the rain and cold weather more than 100 gathered

in Beacon Hill Park for the eighth annual Sunrise Service of the Victoria Camp of the Gideons.

Richard Holdwarth, international trustee from Gideons' head office in Chicago, gave the Easter message.

Bandmaster Max Chalk led the Salvation Army Band, while Senior Capt. W. Radcliffe conducted singing.

At the Lookout in the park the C.G.I.T. held a service.

## Memorial Service For Samuel Clack

Memorial service were held Saturday for Samuel J. D. Clack, at Haywards' B.C. Funeral Co. Rev. Dr. J. G. Brown officiated, assisted by Rev. T. H. Laundry. The chapel was filled, many businessmen being among those present.

Mr. Clack died last Sunday in Hot Springs, Calif.

## WHY GROW OLD?

By JOSEPHINE LOWMAN

### Prepare Now To Have Fun In A Gay, Healthful Old Age

I had a most intriguing talk the other day with Ollie A. Randall of The Community Service Society in New York City. Miss Randall is a consultant for the aged. She naturally is most familiar with the problems of older people, but the thing which excited me most was her advice about how to prepare for old age.

For years Why Grow Old? has

column that Doctor Josephine Rathbone of Teachers College, Columbia University, feels that lack of sociability is a great source of fatigue among women, especially those who are marooned in the home with household duties and the care of young children.

If you would prepare for a happy old age, break down those "social adhesions," Miss Randall also said to me, "Believe me, obesity is not only a threat to beauty but is one of the greatest threats to old age. It is not only increasingly uncomfortable as the years pile up but it lays the foundation for chronic disease. Also, older women need everything which boosts their egos and self-confidence and they have a healthier mental outlook if they feel that they are as attractive as possible."

So, today I give you a little capsule of advice: break down your social adhesions, lose that overweight and live eagerly and fully in whatever stage of life you find yourself.

If you would like to have my leaflet, "Watchword of Science for Youth After Forty," send a stamped, self-addressed envelope with your request for leaflet No. 61 to Josephine Lowman in care of this newspaper.

Actress Ann Miller has no cause for immediate worry, but overweight can be a threat to beauty as well as to old age.

been promoting similar ideas through this column but hearing such positive conviction from one who knows so well because she sees the end results of negative living, was dramatic.

First let me report what Miss Randall gave as the main problems in working with the aged. She said, "One of the main problems is breaking down what I call social adhesions. Many older folks withdrew from life years ago. Their horizons narrowed at middle age. As a result they have become somewhat ingrown. Their timidity and sometimes even suspicion make it more difficult for us to help them."

She continued, "Women should prepare for old age by living vitally all along. They should live fully in every stage of life. They should have more fun and more interests at middle life. In the end you must get happiness and fun through yourself. One cannot suddenly have the habit of fun in old age after years of grimness."

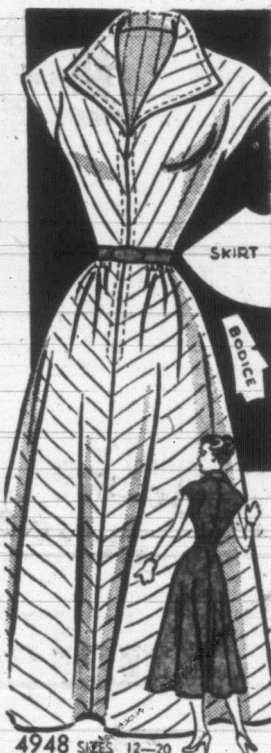

What a thought, and how true! I myself have always believed that women who hold onto their children in a frantic sort of way after they are grown do so because of a feeling of frustration due to the fact that they did not fully enjoy their sons and daughters when they were growing up. They look back with regret rather than with a warm feeling of richness and satisfaction.

I have already reported in this

Plan Tea — Victoria Nursing Home Auxiliary held their meeting recently at the home of Mrs. C. C. Warren, Oak Bay Avenue, when plans were made for a Spring Tea, April 26, in Douglas Room, Hudson's Bay Company. Tentative plans were also made for the annual garden party in June. Mrs. S. Naysmith was welcomed as a new member and it was reported that a wheel chair had been donated to the home.

### Tired of It All?

McGill is in charge of registration and social activities for the convention. Chairmen will be Dr. Harold P. Johns and the secretary Robert H. Heywood.

### SHOPPING GUIDE

#### 'Top Drawer' Secrets For Little Lady With Needle

By PENNY SAVER

Accessories for the top drawer of your sewing cabinet . . . now I tell you, bet you're thinking, but there are all your late spring and summer togs still to be thought about and made.

First of all, hidden beneath a four and a quarter-inch, knife-shaped case, is a seam ripper and a thread picker. At one end slip off the plastic cap and there you'll find a needle to help you nip through the unpicking of threads. At the other end, a razor-sharp blade that will plow through seams faster than a buny can wiggle its nose. With one and one-quarter inch measure on the body of the set, the wee, gadget sells for 39 pennies.

There's a self-threading sewing machine needle to fit most machines. Seems all you do to perform the oftentimes fiddly operation, is slide the thread down the needle and the rest is clear sailing. For sewing on

tightly, creating, at the conclusion of the job, a rather odd buttoning around the button. Yep! Sounds good to me!

Had a chuckle to myself this morning when, after talking to the clerk about a new lint lifter she suggested we try it out on a customer. No sooner said than along comes a bright-eyed customer carrying small-sized Fido in her arms. Course, you know that angora effect after a pooch or cat has brushed against a garment. "The woman was perfect. Black coat and dog hairs!"

"Well, we inquired if we might try our experiment on her coat. She agreed and we went to work on her."

Not many minutes later the cleared rows, where we had run the little roller of sticky paper, looked like the front lawn after its first cutting. The little lint picker-upper made with brush-type handle is used as a brush. After the tape becomes filled with its share of dust, lint, etc., tear off an inch of it and continue to use. The set, 89 cents, and tape refills, 39 pennies.

### TODAY'S RECIPE

#### Date Pudding Delight

One cup flour, 1/2 cup sugar, 1 1/2 teaspoons baking powder, 1/4 teaspoon salt, 1 cup chopped dates, 1/2 cup milk, 1 1/2 cups water, 1/2 cup brown sugar, 1/2 cup margarine, 1/2 pint heavy cream, whipped.

Sift flour, sugar, baking powder and salt. Add dates and milk. Spread batter in a greased 7x11 baking dish. Heat water, brown sugar and margarine and boil for 2 minutes. Pour over batter and bake in a moderate oven (350 degrees F.) 30 to 40 minutes. When done, the batter will be at the top and there will be a rich sauce in bottom of baking dish. Serve pudding warm with whipped, or plain heavy cream.

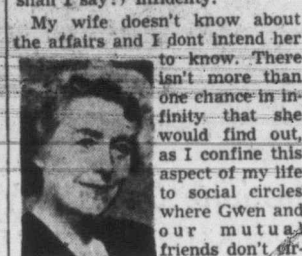

buttons, turning collar points or removing basting threads there's a handy button gauge selling to everyone for 25 pennies. I'm no sewer, mind, but can see the versatile gauge a very great help to me when sewing on buttons. Inevitably, I sew them on too

## MARY HAWORTH'S MAIL

### Clergyman Advises Husband To Confess Misconduct; Man Thinks It Unwise; Both Agree To Consult Column

Dear Mary Haworth: I am 34, happily married for 10 years; my wife and I have three children, each an individualist, and we own a comfortable home, two cars and numerous pets. Gwen and I have mutual respect and deep affection and a pleasant sex relationship. Most of our recreational interests are of a nature that the whole family may share; but once a week Gwen and I go out together, leaving the children with my parents. I have a few recreations on the side—swimming, spear fishing, sailing, and (how shall I say?) infidelity.

Mary Haworth

My wife doesn't know about the affairs and I don't intend her to know. There isn't more than one chance in infinity that she would find out, as I confine this aspect of my life to social circles where Gwen and our mutual friends don't circulate. The point of this letter is that a clergyman friend of mine, who has known me for 15 years, insists that I am living a lie, and should make a clean breast of things to my wife. I feel that such a confession would do infinitely more harm than good.

The affairs, though numerous, are short-lived. They last from several weeks to about six months, with two to nine months' stretches of monogamy.

**MAN IS HAPPY**

I always tell them I am married and will stay married, that I am interested merely in an affair, and that we cannot be seen together in public. Eight out of 10 women turn me down when I state these terms; and the only reason I succeed with any is because I am the movie stereotype—tall, athletic in build, with that comfortable "pipe-and-slippers" look. My conquests are no more important to me than the various aromatic tobaccos I enjoy; or the variety of exotic foods that Gwen likes to prepare. . .

### SWAGGER COVERS URGENT ANXIETY

Dear D. J.: When a man is happy and well adjusted, as you claim to be, he doesn't go in circles from clergyman to therapist and back again, talking endlessly and inconclusively, and with boastful sound, about his disorderly sexual behavior.

You are so completely mixed up, and so self-deceiving, in your representations about yourself that I hardly know where to begin, to clear your head. In your letter, you are swaggering about your conquests. At least, that is the overt intended pitch. But I suspect that latently you are crying, like a lost soul, for help with the essential problem that has you on the run. What is that problem? I think the framework has to do with your shock reactions to your earliest impressions of sexuality, as a frightening paradox—something allegedly shameful and tabu, yet also a factor in the parental relationship.

### BETTER NOT BOAST

Psychotherapy, of the ineffectual type you employed, served as a temporary antidote to this turmoil—without reaching the seat of the trouble, however; and indeed without sparking any curative insight into the origins of your psychic disturbance, it seems. Somewhat calmer, you embarked on marriage as a presumable solution of (or maybe a respectable cover for) your profound uncertainties about your appetite or capacity for a normal wholesome sexual alliance. Your next critical difficulty developed when you found yourself indifferent to sexuality in a legitimate

relationship. Then you turned into bypaths of furtive conquest—for the basic reason that your sex phantasies revolve around "tabu" behavior, degradation of the woman, etc., a morbid ideology that is rooted in your childhood trauma.

If a clergyman has suggested that you disclose your miscon-

duct to your wife, I protest it's bad advice. Why infect her with shock-sickness of spirit too? Rather seek help for yourself from effective specialists in the field of mental and moral hygiene. You can find such help if you earnestly seek it. Meantime, stop the pathetic confidential bragging about your compulsive, recurrent varietyism.

—M. H.

Mary Haworth counsels through her column, not by mail or personal interview. Write her in care of the Times.

## OF PERSONAL INTEREST

### Anniversaries And Spring Highlight Supper Dance

Saturday night's Empress Hotel supper dance was a "festive occasion" for several couples celebrating wedding anniversaries.

For Mr. and Mrs. Art Southall it was their 24th anniversary and for Mr. and Mrs. Don MacNeill, the first.

Others to whom William Tickle and the orchestra dedicated special numbers were Dr. and Mrs. Roscoe Garner, Mr. and Mrs. Fladgate, Mr. and Mrs. Harold Dingle, Mr. and Mrs. Harold Bell and Mr. and Mrs. G. Conyshell of Kamloops.

There was a touch of spring in many of the gowns worn, prints and sheers being especially popular. Most in tune with the season was Miss Patricia Emery, wearing powder blue taffeta with bouffant skirt and strapless bodice and a half-wreath of tiny daffodils in her dark hair.

Mrs. J. E. MacKenzie was charming in a classically-draped formal of shaded, grey-to-white nylon. Strapless models were worn by Mrs. W. Reynolds in black lace over white satin and Mrs. George Thackeray in a picture gown of copper lace and net.

Less formal but equally striking was the ensemble worn by Mrs. D. C. S. Abiss, whose floor-length skirt of patterned jade and scarlet mandarin cloth fell in soft, unpressed pleats. With it Mr. Abiss wore a model white crepe blouse. Miss Frances James was looking smart in an imported ballerina-length navy-and-white organdy with a draped neckline.

The supper dance was by way of a farewell for Mr. and Mrs. Frank R. Bridgett who will leave Victoria this Saturday to make their future home in Vancouver. They attended with Mr. and Mrs. Bill Anderson and Mr. and Mrs. Bev Campbell.

Among those reserving tables were A. E. Acres with a party of eight; A. Gilling with eight; George Thackeray with 10; Dr. R. Garner with eight; G. L. Carter, 10; J. P. Harris, 10; A. J. Earle, eight; H. M. Bell, eight; D. McNeill, six; R. C. Cleland, eight; Mr. H. Johnson, 16; Dr. R. Johnson, four; Dr. Chris Moore, four; R. M. Phillips, eight, and G. C. Percy, four.

### University Dinner At Club

A dinner was held at the Union Club on Saturday night for members of the Universities of Oxford and Cambridge, with Major H. C. Holmes of Oxford in the chair. Mr. F. B. Ward was the guest of the diners.

Those present were, from Oxford: Mr. E. A. Boxall, L. C. Boyd, J. A. Byers, J. B. Clearhue, Sir Robert Holland, R. Peters, J. G. Rutan, J. C. Scott-Harston, Major H. D. Seale, J. J. Timmis, J. B. Watson and N. T. Wylie. And from Cambridge: Mr. D. Campbell, F. T. Gardiner, C. F. Genge, P. T. James, Dr. D. Longridge, Major F. V. Longstaffe, A. D. Ross, F. Saxton-White, F. V. C. Serjeant and Dr. I. C. C. Tchaperoff.

### To Convene Alumnae Tea

Mrs. J. H. Moore and Mrs. G. Rose will be conveners of St. Joseph's Alumnae Canasta, Bridge and Tea to be held in the Nurses' Home, April 11. Mrs. R. D. Harvey, Mrs. L. W. Bassett, Mrs. A. N. Reid and Mrs. Gordon Cameron will preside at the tea table.

Mrs. James Macfarlane, Island Highway, is visiting her daughter, Mrs. N. Forbes, in Los Angeles.

Mrs. Grace Brown, Bryn Mawr Road, Langford, had her sister Mrs. Kay Munro with her for the Easter week-end.

Mr. Maurice Atkins, Victoria, was a visitor at British Columbia House, London, Eng., last week. Also S.-L. F. W. Costin, Duncan, B.C.

Major and Mrs. J. R. C. Hewett have returned to their Falkland Road home after spending the past two months in the West Indies and in southern California.

Mrs. J. W. Benning, Jr., has returned to her Queenswood home following a four-month vacation in the eastern States and in Bermuda, during which time she visited her family in Sewickley, Penn.

After holidaying in Southern California and Mexico for the past five weeks Mrs. A. H. F. Steick, Old Esquimaux Road, with her son-in-law and daughter, Mr. and Mrs. S. V. Rusin, and their little daughter "Bonnie," returned to the city yesterday.

### Well-Known Victorian To Wed In May

Of interest in Victoria and on the mainland is the announcement made this week-end of the engagement of Marcia Winona, youngest daughter of Mr. O. H. Dorman, Newport Avenue, and the late Mrs. Dorman, to Anthony Hans Swinton, Vancouver, son of Mrs. Elizabeth V. Schwitzer, and the late Mr. Alfred Schwitzer, Vienna, Austria. The marriage will take place in St. John's Anglican Church on May 5 at 2 o'clock, with Canon George Biddle officiating. Miss Dorman has chosen her sister, Roma, as her only attendant, and the best man will be Mr. Frank Mitchell, Vancouver. The bride-elect was educated at St. Margaret's School and graduated in occupational therapy from University of Toronto. The groom-elect is a graduate of University of British Columbia in Arts and Law, and is affiliated with Zeta Psi. During the war he was with the R.C.A.F.—Photo by Goertz.

### Nursery School Plan Discussions

Mrs. H. B. McClung, Wilmet Place, was hostess recently at a joint meeting of Greater Victoria Nursery School Association and the Victoria Nursery School Incorporated.

W. Hoosen, president of the latter organization, was chairman, and led a discussion on "How to Acquaint the Public With the Work of the Two Groups." It was decided that a committee of four should draw up plans for talks and forum discussion.

Announcement was made that the Victoria Nursery School, Oak Bay Avenue, is now being used by small groups as an educational centre to observe small children.

The display arranged by the Victoria Nursery School Incorporated as part of the P.T. convention exhibit at the T. Eaton Company Limited this week will represent a typical nursery school room. It features six boys and girls using play materials. The children will be present between three and four every day except Wednesday, under the supervision of the director, Miss Patricia Attwood, a graduate of the Froebel Institute of London.

Tea and Sale—Châtelaine Club of the Y.W.C.A. held a successful spring tea and sale recently. Mrs. F. G. Mulliner and Mrs. R. E. Foster presided at the tea table.

Mrs. J. L. Gates will open St. Alban's Ladies' Guild and Women's Auxiliary Easter tea and sale of work, Wednesday at 2.45.

### EX-SERVICE WOMEN NOT INTERESTED

OTTAWA (CP)—Any number of girls are willing to jump into uniform at the word "go" from the defence department. But not many former service women are interested.

That's what the department has learned since it began filling away queries six months ago from potential women members of the army, air force and navy.

The navy reports "as many as five a day" and the R.C.A.F. says it's getting "hundreds of letters." The army considers the general reaction "encouraging."

But Canada's 48,000 women veterans of the Second World War aren't among the enthusiasts. Any revival of the women's services probably will start with "an entirely new crop of girls."

Special refresher course meeting of Registered Nurses' Association of B.C., Tuesday, 12 noon to 2 and 8 p.m. to 10. Nurses' Home, St. Joseph's Hospital, Miss Fern Trout, Vancouver, Education Instructor of R.N.A. of B.C., will speak on newer drugs.

Afternoon Branch, St. John's Women's Auxiliary, Tuesday, 2.30, auditorium... Past Mistresses Club, Ladies' Orange Benevolent Association, home of Mrs. Bert Noel, 1429 Richardson Street, Tuesday. Miss Lottie Bowron, guest speaker.

## Groom From Quebec Province Claims Victoria Bride, June Carol Hallor

Montreal and this city share interest in the Saturday evening wedding that united June Carol Hallor, daughter of Dr. and Mrs. Ellis Hallor, 2350 Nottingham Road, and Stuart Douglas Crawford, son of Major and Mrs. A. D. Crawford, E.D., Montreal, P.Q.

A bridal gown of palest blue French imported lace was designed with an overskirt of cloud blue nylon sloping to ballerina length at the back, and a bolero

bodice featuring face framing collar. Two blue roses held her nylon net chapel-length veil and she wore matching mitts and shoes of blue. Her bouquet was of yellow roses and freesias. Dr. Hallor gave his daughter in marriage.

Miss Shirley Ann Hallor was bridesmaid for her sister. She wore a pale yellow gown of eyelet embroidered French organdy over yellow taffeta with match-

ing double ruffle headdress. Matching yellow accessories and a bouquet of blue iris, yellow carnations and blue freesias, completed her ensemble.

Francis Lloyd was best man and J. E. (Ted) Browne was an usher.

Following the ceremony conducted by Archdeacon A. E. de L. Nunns in St. Mary's Anglican Church, a reception was held at the home of the bride's parents. White candles in silver holders and white eyelet embroidered cloth formed the table setting where the couple cut a three-tier cake. Arthur Hemming proposed the toast.

Navy accessories were worn with the bride's traveling suit of peach and blue check and topcoat.

After a honeymoon in Portland the newlyweds will live at Lake Cowichan.

### Bremerton Future Home For Mr. And Mrs. N. B. Boyack

Motoring in Washington and Oregon, with plans to make their future home in Bremerton, are Saturday evening's bride pair, the former Edith Marie Cummins

and Norman B. Boyack, United States Navy.

Dr. A. E. Whitehouse united the daughter of Mr. and Mrs. A. P. Cummins, Roy Road, Colquitz and the son of Mr. and Mrs. B. Boyack, Roseburg, Ore.

Baskets of spring flowers formed the setting in Metropolitan United Church for the bride in her wedding gown styled with lace bodice, sheer nylon yoke, long sleeves of dainty lace and tapering waistline pointing up the fullness of the nylon net skirt with lace insets over satin that extended into a train. Her embroidered full-length veil of illusion net was caught to a beaded headress. She carried red roses, white freesias and fern. Her father gave her in marriage.

Miss Glenda Shepherd, maid of honor, chose a pastel green gown of whisper taffeta, styled with overskirt of net. Fresh flowers were worn in her hair and she carried yellow and white tulips. Bridesmaid Miss Frances Boon wore canary yellow taffeta gown, bandeau of spring flowers and carried blue iris and yellow tulips.

Best man was Benny C. Elwell, cousin of the bride, and ushers Arnold Fisher and Donald Stewart.

Accompanied by R. Halloway at the organ, Miss Mary Sharkey sang "Because" while the couple signed the register.

At Olde England Inn, the scene of the reception, the bride's table was set with three-tier cake, pink carnations and white freesias on lace cloth. Eric Elwell, uncle of the bride, proposed the toast.

The bride changed into a green gabardine suit, topped with winter white, and green-straw hat with brown trim, for traveling.

St. Mark's Women's Auxiliary and Guild, Easter tea, Wednesday at 2.30. Home cooking, fancy work, flower and plant stall... Monthly meeting, women's Auxiliary, Royal Jubilee Hospital, Wednesday at 2.30. Nurses' Home... Women's Auxiliary, Naval Veterans, rummage sale, Hard of Hearing Hall at 10, Wednesday at 10 a.m. Donations to Naval Vets Hall, not later than Tuesday afternoon.

## Y.W.C.A. ACTIVITIES

Monday—5, Junior Y. Teens, dramatics night; 7, 60-Up Club; dress making and designing. Tuesday—7, Sub-Debs, talent night; 8, Glee Club. Wednesday—7.30, Overseas Wives' Club; 8, Châtelaine Club; dramatics.

Canadian Daughters League, Assembly No. 5, tonight at 8, Newstead Hall. Initiation.

## Experiments To Prove Sixth Sense Of Animals

DURHAM, N.C. (AP)—The sixth sense of dogs, cats, migratory birds and fish is up for scientific experiments at Duke University.

Does your dog really read your mind? When the cat finds you after you have moved to a new place is it really an accident?

These experiments, new to the scientific world, are going on in the parapsychology laboratory here, where in 20 years of work Dr. J. B. Rhine has shown the existence of a human sixth sense which he calls extrasensory perception.

His proof is mathematical and mathematicians say the mathematics are used with absolute correctness.

Dr. Rhine has not discovered what forms his human sixth sense. That is why he is taking on animal experiments. If this mysterious quality is proven in animals, it will be possible to do experiments that cannot be tried on humans. The hunt will be for something equivalent to a sense organ not now recognized.

The first step is gathering dog and cat stories and checking their correctness. The best authenticated dog story thus far is about a collie, Bobbie, whose owners took him on an auto trip from their home in Silverton, Ore., over a northern route into Indiana. There they lost him. The family continued on to Mexico and then home to Oregon.

Months later Bobbie appeared at his Oregon home about 2,000 miles from Indiana.

### Film Star Robbed Of Jewelry, Furs

LONDON (AP)—Thieves stole jewelry and furs valued at between \$28,000 and \$56,000 from the apartment of movie star Tyrone Power, and his wife, Linda Christian, police said Sunday night.

The Powers were in the country for Easter at the time of the theft. They live in the fashionable Mayfair section of London.

Police reported that Power had lost his jewelry collection, while his wife's black and white mink furs were stolen. The actor is making a picture here.

HENRY FONDA

### 'Mr. Roberts' Cast In Fire

DES MOINES, Ia. (AP)—Fire early Sunday routed 200 guests, including actor Henry Fonda and other members of the "Mr. Roberts" stage cast, from their rooms in the 11-story hotel Fort Des Moines. Fire damaged only one room.

Manager Scotty Anderson said three firemen were overcome by smoke and elevator operator Joan Galuska was treated for exposure to smoke.

Firemen said they forced open the elevator doors with a crowbar and were carrying the girl out when Fonda, on his way to the lobby, helped them move the girl to a room.

The actor then helped give artificial respiration to the girl for 30 minutes while oxygen equipment was brought upstairs.

## BEDTIME STORY

by Thornton W. Burgess

What makes a scamp? Much will depend on circumstances that attend.

—Old Mother Nature.

"Who in the world is Iggy?"

cried Farmer Brown's boy.

"That's a new name to me. I never heard that one before."

His friend laughed. "I guess you don't have Iggy up north where you live. You find Iggy only down here where it is summer all the year round."

"What a name! I suppose it is short for his real name, whatever he is," said Farmer Brown's boy.

The other nodded. "That's a good guess," said he. "Iggy is my name for the iguana. You know an iguana when you see one, don't you?"

Tommy shook his head.

"Never saw one," said he.

"An iguana is—" began his friend and stopped abruptly.

"Look! There is one now!" he exclaimed. His eyes were fixed on a point a short distance off and to one side of where the two boys were standing by the chicken run.

"Where?" cried Tommy, staring in that direction. "I don't see anything I haven't seen before."

"Look on the base of that palm tree over there," replied the other pointing.

Tommy looked. At first he saw nothing unusual. Then he saw something green, brighter green than surrounding leaves. It moved. For the first time Tommy really saw what it was. It moved again a little way up the gray trunk of the palm. He saw it clearly now.

"Why, that's a lizard!" he cried. "It is the biggest lizard I've ever seen. What a lovely green coat he has. I wish we could catch him."

"If you can climb that tree fast enough perhaps you can," chuckled his friend. Tommy

grinned. Climbing that tree was quite out of the question, and his friend knew it.

"That," said the latter, "is young Iggy."

Tommy's eyes opened wide.

"What?" he cried.

"I said that is young Iggy," replied the other. "He is a young iguana."

"But he looks like a lizard. He looks exactly like a lizard," protested Tommy.

"And why shouldn't he? He is a lizard," replied the other.

"But you just said he is an iguana," cried Tommy.

"Well, what do you think an iguana is? It is just a big lizard, the biggest member of the lizard family around here," explained the other.

"He is big," agreed Tommy.

YOUNG IGGY

His friend began to laugh.

"Do you think that green scamp big?" he cried. "Why that is just young Iggy. Wait until you see one fully grown. Then you'll really see something. Why sometimes an iguana gets to be almost as long as you are tall."

Tommy's eyes opened wide.

"Phew!" he exclaimed. "I would like to see one." Then he remembered that some small chickens had mysteriously disappeared.

"Do you think that green-coated scamp stole those chickens?" he asked.

"Does he look as if he could swallow a chicken?" laughed his friend. "No, young Iggy over there hasn't bothered the chickens. If he were fully grown I might suspect him. I never have had an iguana steal any of my chickens, but I've been told that sometimes they do that."

Just then young Iggy started up the tree. He ran. Happy Jack

Iggy is my name for the Iguana.

Squirrel never ran up a tree in the green forest faster than that green-coated scamp with the long tail ran up that palm tree. He disappeared among the coconuts at the top.

"If that was young Iggy I would like to see old Iggy," said Tommy.

## Pravda Complains Of U.S. Spies In China

MOSCOW (AP)—A special correspondent of Pravda wrote today the United States has an extensive spy system inside China, built up during the war. He said the organization is charged, among other things, with assassination of Chinese leaders.

During 1950, in northeast China alone, he said 3,794 armed

"American-Chiang Kai-shek agents" had been captured and 1,794 "bandits" liquidated.

Only recently, he continued, an American espionage ring was broken up in Tientsin, consisting of 20 spies with powerful American radio transmitters and

secret codes. He said the leader of the organization was Heinrich Lippardt.

FOUNDED ON COAL

Stellarton, N.S., began as a village when coal was discovered in that district in 1798.

### LIVERISH?

"Troubles never come singly," they say. So take Dr. Chase's Kidney-Liver Pills and get two treatments in one! In the 1951 Mobilgas Economy Run, three Studebaker 4-door sedans successfully defended their reputation for standout gasoline mileage over a tortuous 840-mile course from Los Angeles, California to the Grand Canyon, at speeds averaging more than 40 miles per hour. The Studebakers, piloted by experienced drivers

under American Automobile Association Contest Board rules, made operating economy history. Each Studebaker had overdrive, optional at extra cost—and used regular, not premium, gas! Your nearby Studebaker dealer has cars just like the record-making Champion and Commander V-8. See them soon.

# Aircraft Industry Has New Triumphs

By HARRY YOUNG, Times Business Editor.

An estimate that Canada's aircraft industry may be required to turn out upward of a billion dollars' worth of aircraft over the next three or four years, is made by "Canadian Business," organ of the Canadian Chamber of Commerce.

To meet the plans of Defence Minister Claxton, the Canadian aircraft industry is extending its plants and operations.

The Canadian aircraft industry is centred in Ontario and Quebec, with A. V. Roe, Canada, Ltd., at Malton, Ont., Canada, Ltd., at Cartierville, Quebec; DeHavilland Aircraft of Canada at Toronto, and Canadian Car and Foundry Co. at St. Laurent, Montreal, doing the bulk of the business.

A. V. Roe is Canada's pioneer in jet aircraft and "Canadian Business" declares it probably has the best all round jet plant on the continent. It has already received high commendation for its medium range jet transport, the Jetliner. Its long-range, all-weather, all-purpose day-night jet fighter the CF-100 is being turned out for the R.C.A.F.

Great extensions are being planned at Malton, where the present employment of 4,500 is expected to reach 10,000 within two years time.

A. V. Roe is also erecting new buildings for the production of the Orenda turbo-jet engine which will probably be used to power the CF-100 and the F-86E Sabre.

The F-86E Sabre jet fighter is the product of another Canadian firm, Canadair, which leads the industry as a mass producer. Canadair is specially proud of its North Star and Canadair IV, of which it has built more than 70. It has also done extensive retooling jobs on hundreds of DC-3's and other models. Canadair is now ready to go into fast production on its jet fighter and is clearing an important cog in the defence program.

Canada's oldest major aircraft producer is DeHavilland, which was incorporated in 1929—evidence of the youth of the country's industry. DeHavilland made its name in war time for its production of the famous Mosquito bomber and while its post-war plans were largely concentrated on reconstruction and overhaul jobs.

DeHavilland also put into production two Canadian designed planes, the Chipmunk and the Beaver. These planes are finding a market all over the world, while DeHavilland's parent company in Britain is producing the Chipmunk for the R.A.F.

The Chipmunk is being accepted by the R.C.A.F. as the Tiger Moth's successor as a trainer plane and only this month one arrived at Pat Bay where it is being used as a pilot refresher trainer by the Victoria Flying Club.

Canadian Car and Foundry is at present chiefly concerned with the reconditioning of the Harvard 2V aircraft to the latest standards of the R.C.A.F. This training plane is made by Can-car under licence from North American Aviation.

Can-car expects a stepping up of demand for Harvard aircraft and is ready to open its plant at Fort William in addition to the present operations at Montreal.

Outside of Ontario and Quebec the chief aircraft operations in Canada are in Nova Scotia where the Fairley Aviation Co. of Canada is working for the navy on overhaul and modification of naval aircraft.

It will be seen from this brief outline that the future of Canadian aircraft industry—particularly in the East—is exceedingly bright. The prospects are that the leading firms will be employing over 40,000 within a couple of years. The difficulty at the moment is to find qualified technicians.

In these circumstances, it is unfortunate British Columbia is out of the aircraft picture. The

arguments that prevent the setting up of so many other defence projects in the far west are applied.

Why this should be a complete deterrent, however, is difficult to understand when Boeing is able, just across the border, to compete in an even more competitive field, from the extreme northwestern tip of the United States.

## Steel Plans Act As Tonic To Wall St.

NEW YORK (AP)—The stock market edged nervously forward in another quiet session today.

Airline, aircraft and rail shares provided leadership. Prices through most of the list held just about even until late in the day when some gains running to more than \$1 a share were achieved.

Traders were encouraged by the market's refusal to extend the sharp spill that prices took in the final hour Saturday. After an opening flurry, dealings returned to the slow pace that characterized activity during the preceding week.

A bolstering influence late in the day was word that the steel industry planned to set a new production record this week at 2,069,000 tons.

Canadian issues fell with Hiram Walker losing 1/4, International Nickel 1/4, Distillers Seagrams and McIntyre each 1/4, while Dome Mines added 1/4. Canadian Pacific was unchanged.

On the curb, Royalite Oil fell 1/4 and Lake Shore 1/4.

## \$ Exchange

NEW YORK (CP)—Canadian dollar was unchanged at a discount of 4 1/2 per cent in terms of U.S. funds. Pound sterling was unchanged at \$2.80 1/2.

## Loss Reduced

The deficit of Dominion Magazine was reduced from \$269,019 in 1949, to \$85,849 in 1950, but the operating profit was smaller at \$205,516, against \$317,876 in 1949. Set aside for depreciation was \$244,999, compared with \$537,711 in 1949.

Canada's Own Jetplane Fighter

Outstanding product of the young Canadian aircraft industry is CF-100 Canuck, the all-purpose, twin jet, day-night fighter designed and built in Canada by A. V. Roe. Presently engine by Rolls-

Royce, the Canuck will in later models use the Orenda jet engine which, like the aircraft, is being made for R.C.A.F. by A. V. Roe. This plane is shortly to be demonstrated in England.—(R.C.A.F. Photo)

## Canada Still Short Of Million And Half Tons Of Steel For 1951

By HAROLD MORRISON  
Canadian Press Staff Writer

OTTAWA (CP)—Canada's steel makers, important figures in rearmament, are on the road to making history this year.

They're producing at unprecedented rates and are aiming to surpass the production high of 3,300,000 ingot tons last year.

Output in January totaled 289,410 tons, compared with 283,894 in January, 1950. Production in February totaled 271,222 tons, again a sharp gain from the 251,890 in the same month last year.

When it comes to a comparison with the big nations, Canada's steel-making ability is relatively small, but there is no grass growing under the industry's feet.

In 1935, it had the ability to produce only some 1,000,000 ingot tons a year. In 1950 it had more than tripled this figure.

### SLOW-UP FACTOR

A big slow-up factor in expansion is Canada's limited peacetime needs, and a big factor,

too, is the steel-making ability of the United States, now limiting export due to a big rearmament program of its own.

Canada usually imported about 1,000,000 ingot tons of steel to add to her own supplies. Last year the U.S. delivered only about 700,000 tons. This year, through government intervention, the U.S. may increase the flow back to the 1,000,000-ton mark, or even a little higher.

Canada's needs, as estimated by the government, are about 5,500,000 tons of finished steel for 1951. At current production and importing rates, she still will need about 1,500,000 tons more than she can get.

### Free Europe Leads Russia On Steel

GENEVA (CP)—The free countries of western Europe produced at least 47 per cent more steel last year than Russia and all its satellites, the United Economic Commission for Europe disclosed today.

The commission's quarterly report on European steel production estimated that crude steel production of the western countries totalled nearly 53,000,000 metric tons in 1950, compared with a 1949 total of just more than 47,000,000 tons.

Production in the Soviet Union and in the European countries under its control totalled, at the maximum estimate, 35,788,000 metric tons in 1950, compared

## Pipeline Makes First Million

EDMONTON (CP)—In its first three months of operation Interprovincial Pipe Line Company had operating income of \$1,084,009. Net income after all charges including interest, depreciation and taxes was \$107,148.

The 1,727-mile pipe line, which links the Alberta oilfields with Lake Superior, began operations Oct. 4 and delivered a total of 2,711,223 barrels by the end of the year.

## All-Canada Route Chosen For Oil Pipe

OTTAWA (CP)—Trans-Mountain Oil Pipe Line Company, recently incorporated by parliament, has applied to the Board of Transport Commissioners for permission to build an oil line from Alberta to Vancouver.

The board announced Sunday it has set the application down for hearing April 23. The company wants to run from Edmonton through the Yellowhead Pass of the Rockies. Its line would touch at Jasper, Alta., and Kamloops, Merritt, Hope and Chilliwack in British Columbia.

## U.K. Needs Sulphur

LONDON (Reuters)—Anglo-American talks to seek ways of helping Britain over a critical sulphur shortage begin here tomorrow at the Board of Trade.

Sulphur is needed for the rearmament drive and also to keep other industries going.

## C.I.L. Sales Top 100 Million; Make Record

TORONTO (CP)—Sales to customers for 1950 at \$117,500,000 were up 18 per cent over 1949. It was announced in the 1950 annual report of Canadian Industries Limited, released today.

Including higher investment income, total net income was \$11,094,000 compared with \$9,001,000 in 1949 and earnings on the common shares increased from \$1.24 to \$1.53 a share.

Current assets were in the ratio of three to one to current liabilities and working capital was \$33,284,392 at Dec. 31 compared with \$27,159,014 in the preceding year.

Canadian Industries manufactures chemical products and products associated with chemicals.

## GRAIN

### WINNIPEG

WINNIPEG (CP)—Coarse grain prices were higher today. Small commercial demand in the form of shipping interests appeared in oats and barley while American demand. Offerings were light.

## ALBERTA OIL REPORT

## Production Drops By 18,000 Barrels A Day

### SPECIAL TO THE TIMES

CALGARY—Crude oil production in Alberta for the week ended March 19 was about 18,000 barrels per day less than the production set during the previous week.

Production for the week ended March 19 set a daily average of 73,611 barrels, against 91,687 set during the week ended March 12. Production came from a total of 2,150 wells either producing or capable of being produced, an increase of seven over the previous week.

Redwater, although still the largest producer, showed the biggest drop in production, with a daily average of 31,812 barrels against 45,378 the previous week. Production at Leduc also dropped, from 24,956 to 21,901 barrels daily.

Daily average production set in the other fields and areas, with the previous week's figures in brackets, was: Acheson, 225 (859); Campbell, 340 (359); Excelsior, 1,503 (1,368); Golden Spike, 1,677 (1,469); Lloydminster, 1,787 (2,148); Stettler, 865 (1,076); Turner Valley, 9,253 (9,446); Whitecourt, 60 (74); and the remaining fields and areas had an estimated daily average of 2,512 barrels against the 2,514 for the previous week.

Another Edmonton oil discovery

ery appeared to be in the making as Imperial Sturgeon No. 1 struck lower cretaceous oil around 3,740 feet. Details of the test are still lacking but apparently substantial oil was recovered.

The well is about two miles southwest of the Campbell oil pool and about five miles north and a little east of Boxboro. Big Lake No. 1 which is about two and a half miles due north of Central Del Rio Acheson production. The Roxboro well has been delayed and was still in D-2 at 4,477 feet at last report.

Central Leduc has a half section about a mile and a half south of Imperial Sturgeon No. 1.

### Rush To Buy Cars

OTTAWA (CP)—Canadians, more eager to drive than walk, purchased almost \$60,000,000 worth of new passenger cars in January compared with \$42,000,000 last year.

The greatest sales were made in Ontario, where dealers chalked up \$25,000,000 worth of new passenger car accounts.

Total units involved in sales across the country climbed to 26,126 in January, a boost of 5,000 over the 21,107 in January last year.

# OTTAWA AGREES!

Report of the Royal Commission on Transportation, compiled after two years' survey, and tabled this week in the House of Commons, Ottawa, states:

"The day of ill-conceived and therefore excessive construction seems to have gone by, and our people can feel reasonably assured that from now on no railway ventures will be undertaken excepting after thorough investigation of each project and always with due regard to the financial commitments involved."

This is precisely what we, on behalf of ourselves and all the other taxpayers of B. C., have been trying to get our Provincial Government to do before voting more millions for a southern rail extension of the P.G.E.

In the light of this report we respectfully repeat our suggestion that an impartial body be set up to thoroughly investigate and report on the economic soundness of the P. G. E. southern rail extension program.

Inserted in the public interest by the Corporation of the District of West Vancouver.

Special P. G. E. Committee

\* Excerpt from Report of the Royal Commission on Transportation, February 9, 1951.

**Tools Of Modern Education On Exhibit**  
One of many interesting exhibits at "Know Your School" display, showing all week in Eaton's Arcade Building, is this section dealing with vocational training and industrial arts. Exhibit shows equipment used by students and some of the things they produce. Display covers 11,000 square feet. Viewing exhibit, from left: Ken Douglas, Peggy McPherson and Peter Jackman.

**Fishpacker Saves Disabled Troller**  
Word of a rescue of a disabled troller and its Indian owner has reached Victoria.  
The Fishermen's Co-operative Association's packer Co-operator I sighted the troller in trouble off Rattle Point on the west coast during a 60-mile-an-hour gale.  
The craft had been drifting for 48 hours since losing its propeller. The lone man aboard was preparing to take to a makeshift raft as his boat was blown near rocks.  
The Co-operator I towed the troller to Queen's Cove, near Zeballos.

**CAMBRIDGE WINS**  
LONDON (Reuter)—A smooth-stroking Cambridge crew out-rigged Oxford in the famous university boat race today, clinching a victory which might have been theirs Saturday if rough water had not halted the event.

## Resurrection Of Christ Celebrated Round World

Services Jammed Even In Religionless Eastern Europe; Pilgrims Hear Pope Pius

By ASSOCIATED PRESS

Continuing international tensions heightened the fervency of Easter celebrations throughout the Christian World Sunday.

Even in Eastern Europe, where orthodox Christianity no longer is favored as a way of life, Easter services were jammed.

In the face of a bleak world prospect, the celebration of the resurrection of the Prince of Peace had added significance, and prayers for the end of strife took on new meaning.

Thousands of pilgrims flocked to the site of the holy sepulchre in Jerusalem. They found in the Holy Land a 20th-century symbol of the Crown of Thorns—barbed wire entanglements remaining from the 1948 Arab-Jewish fighting.

In most of Canada worshippers streamed to church under bright sunshine.

Pilgrims to Rome heard Pope Pius make a fervent appeal for brotherly accord to free the world of lust and violence so that all might live and work in peace.

Chaplains with United Nations forces in Korea held services at crude outdoor altars to bring their embattled congregations Christ's message of hope.

An urgent wish for a peaceful, ordered world was the dominant theme of observances everywhere.

In Communist-governed Czechoslovakia, in Soviet-occupied East Germany and in Moscow itself, Easter services were jammed. In the Philippines, soldiers with fixed bayonets guarded the faithful from possible raids by Red-inspired Hukbalahaps.

There were cheerful aspects,

## 2 Men Meet Death In Montreal Fire

MONTREAL (CP)—Two men were burned to death and two other persons, including a pregnant woman, were taken to hospital Saturday night when a two-alarm fire raced through three houses, forcing 23 families to evacuate.

Bodies of Roland Joannette, 32, and Robert Hamel, 25, were found among the ruins. Hamel was a roomer in the house where the blaze broke out, while Joannette was visiting at one of the homes.

Mrs. Marie Defosse was taken to hospital suffering shock. Later she gave birth to a still-born premature baby. A fireman, R. Dumas, also was taken to hospital with minor cuts to the hands.

## I switched to Marvelube for engine protection

You get more engine protection under all driving conditions with Marvelube—the premium motor oil that meets all car manufacturers' specifications for correct lubrication.

Marvelube is a detergent motor oil. It not only lubricates—it cleans. A clean engine—free from gum, sludge and abrasive particles—lasts longer and gives you more trouble-free performance. Let your Imperial Esso Dealer protect the investment you have in your car with his "Care-Saves-Wear" service.

the sign that says  
**Esso**  
MORE to stop for

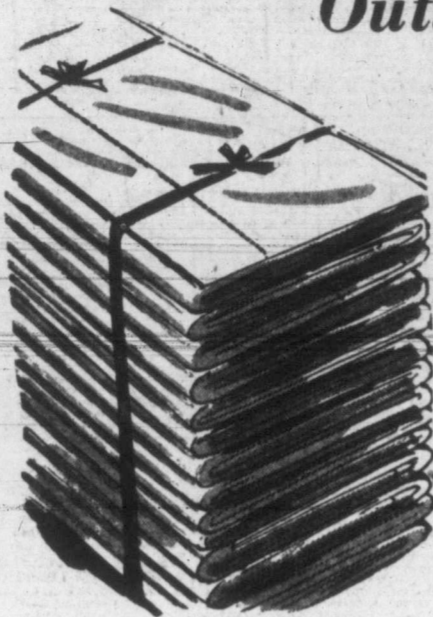

**MORE** balanced performance from your engine with Esso gasoline. Fill your tank with "up-to-date" Esso or Esso Extra. Take your car out on the road. See for yourself its better all-round performance. Esso and Esso Extra are continually being improved to give the best-balanced combination of fast starting, good acceleration, power and mileage. Switch to Esso Gasolines and you're always ahead!

**MORE** guaranteed tire life with the famous Atlas Whitewall tires—guaranteed which covers all road hazards and is honored by over 38,000 dealers in Canada and the United States.

**MORE** protection against repair bills with Imperial Esso Specialized Lubrication—every point carefully serviced by chart according to car manufacturers' specifications.
